Report of the Major Workshop Committee-- 2008

As has been our past practice, we solicited, (cajoled, and begged) for proposals. Happily, we received a set of high quality submissions of adequate number to offer good workshops for the 2008 conference. We continue to face the challenge of getting enough proposals so that we can have a safety net and to build in possible workshops for future conferences.

Respectfully submitted,

Donna Bozzone and Kate Verville
