**Player Transfer Form**

Under specific rules players are allowed to transfer from one team to another. The transfer rule is not meant for a team to borrow a player for a game and have them go to a team that they intended on playing with all along.

Examples of legitimate reasons for players to transfer:
- The current team’s playing schedule does not match their student course schedule
- Player wants to move to play on a team with their friends
- Player wants to move to a team in a division that better suits their skill level

Transfer will be approved if the following conditions are met:

1. Transfer is occurring prior to or at the midpoint of the regular season for the team in which they are transferring to.
2. Player transferring loses all games played in the league with the original team and must play in enough league games with their new team to be eligible for play-off competition.
3. Team that the player is transferring to has not taken on any other transferred players during that season (only one transfer is allowed per team, per semester).
4. Transferring player is aware that they cannot transfer to any other teams in that sport for that semester.
5. If the transferring player is carrying IM points, the team that the player is transferring to is within the IM point limits. (Contact the Program Office for IM Point system concerns).
6. Transferring player has submitted this form 48 hours prior to his new team’s next game.
7. Signatures of both team captains/reps involved approving the transfer are on the form below.
