The University of Toronto is committed to ensuring the quality of its academic programs, its teaching and the learning experiences of its students. An important component of this is the regular evaluation of courses by students. At the University of Toronto, course evaluations are conducted for the following reasons:

1. To provide formative data used by instructors for the continuous improvement of their teaching.
2. To provide members of the University community, including students, with information about teaching and courses at the institution.
3. To collect data used in the summative evaluation of teaching for administrative purposes such as annual merit, tenure and promotion review.
4. To provide data used by departments and divisions for program and curriculum review.

Course evaluations are part of an overall teaching and program evaluation framework that includes regular peer review, instructor self-assessment, cyclical program review and other forms of assessment, as appropriate. As part of this framework, course evaluations are a particularly useful tool for providing students with an opportunity to provide feedback on their own learning experiences (from the Policy on the Student Evaluation of Teaching in Courses, 2011).

This document outlines the various roles and responsibilities of the institution, UTM, academic units, and instructors in relation to the administration and use of course evaluations. In addition, this document provides information pertaining to the reporting of collected course evaluation data (addressing format and use).

1. Administration of Course Evaluations
At the University of Toronto Mississauga (UTM) all undergraduate and graduate courses will be evaluated as required by the University of Toronto’s Policy on the Evaluation of Teaching in Courses (2011).¹ The normal practice will be to utilize the University of Toronto’s centralized course evaluation framework and online delivery system for all courses. The institutional framework provides a customizable evaluation form with the following general format:

<table>
<thead>
<tr>
<th>Type of questions</th>
<th>Use of questions</th>
</tr>
</thead>
<tbody>
<tr>
<td>Institutional questions</td>
<td>These questions must appear on the forms for all courses across the university.</td>
</tr>
<tr>
<td>UTM undergraduate or graduate divisional questions</td>
<td>These questions must appear on the forms for all courses (or relevant subset of courses) in the division.</td>
</tr>
<tr>
<td>Department/program questions</td>
<td>These questions may be specified to appear on the forms for all courses (or subsets of courses) by the course-sponsoring unit.</td>
</tr>
<tr>
<td>Instructor questions</td>
<td>These questions may be specified for each course offering taught by the instructor.</td>
</tr>
</tbody>
</table>

Responsibility for the administration of course evaluations will be as follows:

1.a. University Role and Responsibilities
- Provides and supports a centralized course evaluation framework and online delivery system that preserves student anonymity and supports various reporting options. This framework and system will be used for all courses across the university. The framework includes a common course evaluation form that is customizable by divisions, academic units, and instructors. The online course evaluation system will be managed centrally through the Office of the Vice-President & Provost and the Centre for Teaching Support & Innovation (CTSI).
- Specifies a set of institutional questions that reflect the overall teaching priorities of the University, and that must be included on all course evaluation forms.
- Provides staff support for course evaluation administration in CTSI through the Course Evaluation Support Officer (CESO) who is specifically designated to assist divisions, units, and instructors in all aspects of the evaluation process.
- Provides materials to support the interpretation and use of course evaluation data available at: http://www.teaching.utoronto.ca/teaching/essentialinformation/evaluation-framework.htm
- Manages communication to students, faculty, academic administrators, and staff information about the course evaluation system, with the assistance of the CESO and in consultation with the division.
- Advises divisions on appropriate evaluation processes for courses with enrolment under 10.

1.b. UTM Role and Responsibilities
- Oversees the course evaluation process for all of its courses.
- Engages the support of UTM student unions to facilitate ongoing communication with students.
- In consultation with academic units, identifies any courses that may require alternative means of evaluation. This may include low enrolment courses, team taught courses, online courses, etc.
- Identifies divisional questions that reflect UTM teaching and learning priorities.
- Sets the time period for course evaluations. All evaluations will be administered at the end of each undergraduate and graduate term for a time period of at least two weeks duration. Students will have the opportunity to complete the evaluations online throughout the given time period.
- Ensures that course evaluation data reports are shared with academic departments/programs and students (see details below).
- Reviews processes relating to the administration of course evaluations regularly to identify any necessary changes to division-wide procedures.

1.c. Department/Program Role and Responsibilities
- Identifies a faculty member (or members) to serve as the primary contact between the department/program and the Dean’s office and the CESO. Normally, this would be the associate chair undergraduate and/or associate chair, graduate. This individual (or individuals) will provide assistance with the selection of courses to be evaluated.
  - Wherever possible, information about courses and the instructional team, including instructors and TAs, will be drawn automatically from the student information system (currently ROSI). For some courses, the available information may be incomplete. Academic units will identify any courses where information is incomplete or insufficient, and will provide to CTSI any necessary additional information needed to administer the course evaluations.
- Identifies up to 3 questions, for inclusion on the course evaluation form, based on department/program level teaching and learning priorities. These questions may apply to all courses offered by the department/program or to particular sub-sets of courses. The questions will be drawn from the institutional question bank or developed in collaboration with CTSI and the CESO.

1.d. Instructor Role and Responsibilities
- If desired, selects up to 3 additional questions for the evaluation form for each offering of each course that they teach. Instructors may use these questions to assess specific teaching priorities and/or approaches not
addressed elsewhere on the form. The data collected through the use of these questions are intended to provide formative feedback for the instructor and as such will only be reported to the instructor.

- Each instructor teaching a course will receive an email invitation to add instructor-selected questions from the question bank to the course evaluation form. Directions, guidance, and deadlines for this process will be included with the email communication. There is no requirement for instructors to add questions to their evaluation forms.
- Instructors may choose to share the results from course-specific questions with their chair or other academic administrators (e.g. for PTR/Merit, tenure and promotion review).

2. The Evaluation Form
The University of Toronto’s course evaluation framework allows for the creation of a customizable form that includes a set of required core institutional questions, divisionally-selected questions, departmentally-selected questions and instructor-selected questions. The maximum number of questions permitted on the evaluation form is 20.

At UTM, the standard format for course evaluations is as follows:

<table>

2.a. TA Questions

Procedures for assessing teaching assistants within the new evaluation framework are currently being established. Units interested in including questions pertaining to teaching assistants should contact the Dean’s Office. Until these new procedures are in place, TA evaluations will continue to be administered in the usual fashion.

3. **Reporting**

Reports of the results of course evaluations will be available to various audiences, following the Provostial *Guidelines on the Evaluation of Courses*, which outline institutional requirements relating to the access of course evaluation data. Available reports include:

3.a. **Summative Report**

*Purpose and Recipients*

- Intended to be used for summative evaluation in support of assessment of an instructor’s teaching for PTR, tenure and promotion, awards, etc. Note that student evaluation of teaching forms just one component of a thorough assessment of an instructor.
- Available to the instructor, as well as to their dean(s) and academic department/program head(s), and those responsible for program oversight, such as associate chairs.

*Included Information* (each course reported on separately)

- Quantitative and qualitative data from institutional, divisional, and academic department/program questions
- A composite score will be provided for core institutional questions 1-5
  - The composite reflects the extent to which each of the institutional priorities was part of a student’s learning experience in his/her course. The composite takes into account multiple factors relating to this experience and provides a comprehensive assessment of that experience.
- For each question, the following data will be provided:
  - Question text
  - Response set
  - Course enrolment
  - Number of responses
  - For quantitative responses only:
    - Frequency (displayed as chart)
    - Mean

September 2014
- Median
- Mode
- Standard deviation
- **Note:** For courses with enrolment under 5 and when response rates are under 10, only the response distributions will be provided for each of the quantitative questions.

- The following comparative data for quantitative questions will also be provided (when available):
  - For each academic unit (for institutional, divisional, and academic unit-selected questions):
    - Mean for all undergraduate or graduate courses, as relevant
    - Mean for courses at the same level of instruction (e.g. 100-level)
    - Mean for courses of similar size
    - Standard deviations for academic department/program means
  - For the division (for institutional and divisional questions):
    - Divisional mean for all undergraduate or graduate courses, as relevant
    - Divisional mean for courses at the same level of instruction (e.g. first-year)
    - Divisional mean for courses of similar size
    - Standard deviations for divisional means
  - For the institution (for institutional questions):
    - Institutional mean (graduate or undergraduate)
    - Standard deviation for institutional mean

- **Note:** Data from instructor-selected questions will appear only on the formative report. Instructors may share this data with unit or Faculty administrators, if they so choose.

### 3.b. Formative Report

**Purpose and Recipients**
- Intended to be used for formative purposes – i.e., to inform an instructor in improvement of their teaching and course development.
- Available only to the instructor.

**Included Information** (each course reported on separately)
- All the information from the summative report, plus:
- Data from any and all instructor-selected questions, including:
  - Question text
  - Response set
  - Course enrolment
  - Number of responses
  - For quantitative questions only:
    - Frequency (displayed as chart)
    - Mean
    - Median
    - Mode
    - Standard deviation

### 3.c. Student’s Report

**Purpose and Recipients**
- Intended to provide information to students helpful in course planning and selection.
- Available to students at the University of Toronto Mississauga.

**Included Information** (each course reported on separately)
- Quantitative data from all institutional and divisional questions.
  - A composite score will be provided for core institutional questions 1-5.
Note that instructors may opt out of having the information made available for each course offering they teach. Instructors will be asked to indicate their interest in doing so at the time that they select their course-specific questions. This must be specified separately for each course, each time it is taught.

3.d. Department/Program Report

Purpose and Recipients
- Intended to provide information to academic departments/programs helpful in curriculum design, planning, and assessment.
- Available to academic departments/programs heads and associate chairs.

Included Information (each course reported on separately)
- Summative report for each course and instructor, plus:
  - Academic departments/programs may request customized reports reflecting aggregate or individual instructor data from institutional, divisional, or academic departments/programs questions.

3.e. Dean’s Report

Purpose and Recipients
- Intended to provide information to the dean’s office helpful in assessing teaching and curriculum across the Faculty.
- Available to dean and designates.

Included Information (each course reported on separately)
- Summative report for each course and instructor, plus:
  - The Dean’s office may request customized reports reflecting aggregate or individual instructor data from institutional, divisional, or academic unit questions.
