BIOLOGY (HBSc)

Department of Biology

Biology is the study of living organisms and involves observation and analysis of the tree of life. The foundation of biology is based upon the core concepts of evolution: natural selection and speciation. The study of biology is applicable to all facets of life, helping address such major problems as conservation, overpopulation, pollution, medicine and disease.

UTM Biology is a dynamic community. With over two dozen active research scientists, more than forty graduate students and many post-doctoral fellows doing state-of-the-art research using the latest techniques, our students will have the opportunity to learn from the best. Our undergraduate research projects and summer student placements in research labs will give students valuable, first-hand experience working in a laboratory environment.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started. As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Programs of Study (POST)

• Specialist Program ERSPE2364 Biology (Science)
• Major Program ERMAJ2364 Biology (Science)
• Minor Program ERMIN2364 Biology (Science)
• Minor Program ERMIN0840 Biomedical Communications (Science)

Check out...

How do plants compete and defend? Learn about the population and community ecology of plants in BIO330H5. What’s the connection between animal behaviour and their physiology? Find out in BIO318Y5 which seeks to understand what mechanisms underlie behaviour.

What can I do with my degree?

The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for graduates: Biological technician; Environmental educator; Greenhouse grower; Paramedic; Science magazine editor/writer; Zoology field researcher; Informationist; Doctor; Physician’s assistant; Nurse; Quality controller; Food science technologist; Aquaculture technician; Botanist; Herbarium technician; Dietician.

Workplaces: Manufacturing and processing; Government; Industrial inspection firms; Scientific R&D; Conservation authorities; Zoos, aquariums, national/provincial parks; Pharmaceutical; Academic medical centres/laboratories; Health care.
## HOW TO USE THIS PROGRAM PLAN

Read through each year. Investigate what appeals to you here and in any other Program Plans that apply to you.

Visit [www.utm.utoronto.ca/program-plans](http://www.utm.utoronto.ca/program-plans) to create your own plan using My Program Plan. Update your plan yearly.

**Consult the Academic Calendar for greater detail on course requirements, program notes and degree requirements.**

### 1ST YEAR

<table>
<thead>
<tr>
<th>PLAN YOUR ACADEMICS</th>
<th>BUILD SKILLS</th>
<th>BUILD A NETWORK</th>
<th>BUILD A GLOBAL MINDSET</th>
<th>PLAN FOR YOUR FUTURE</th>
</tr>
</thead>
<tbody>
<tr>
<td>Enrol in courses BIO150H5, 153H5; CHM110H5, 120H5; and MAT134Y5/135Y5/137Y5. Attain 1.0 credit from the second list of required first year courses in the Academic Calendar. Choose a program of study (Subject POS) once you complete 4.0 credits. Use the Degree Explorer Planner and the Academic Calendar to plan your degree.</td>
<td>Use the Co-Curricular Record (CCR). Search for opportunities beyond the class room, and keep track of your accomplishments.</td>
<td>Attend events held by the International Education Centre (IEC) to explore different cultures through food, music, and sport or through sight-seeing around the GTA.</td>
<td>Attend the Program Selection &amp; Career Options workshop offered by the Office of the Registrar and the CC. Check out Careers by Major at the CC to see potential career options.</td>
<td></td>
</tr>
<tr>
<td>Enjoy your first year courses. Use the Degree Explorer Planner and the Academic Calendar to plan your degree.</td>
<td>Attend the Get Experience Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Start strong and get informed with utmONE and LAUNCH through the Office of Student Transition. Join a RGASC Peer Facilitated Study Group.</td>
<td>Use the Career Learning Network (CLN) to find postings for on- and off-campus work and volunteer opportunities as well as Work-Study.</td>
<td>Networking simply means talking to people and developing relationships with them. Start by joining the Erindale Biology Society (EBS). Follow them @utmEBS. Go to the EBS Meet the Prof Night, or the Biology department’s Walk with your Professor. Visit the UTM Library Reference Desk.</td>
<td>Attend the Program Selection &amp; Career Options workshop offered by the Office of the Registrar and the CC. Check out Careers by Major at the CC to see potential career options.</td>
<td></td>
</tr>
<tr>
<td>Enrol in courses BIO202H5, 203H5; 205H5, 206H5, 207H5; and STA215H5/PSY201H5. Work in a foreign lab through the iROP program. Speak to the IEC Global Mobility Coordinator to learn more. Prefer staying local? Apply for ROP courses BIO599Y and BIO399Y. Visit the ECO website for ROP Course Prerequisites. Attend the RGASC’s P.A.R.T. to enhance your research skills.</td>
<td>Do you have a professor you really like or connect with? Ask them a question during office hours. Discuss an assignment. Go over lecture material. Don’t be shy! Learn Tips On How to Approach a Professor available through the Experiential Education Office (EEO).</td>
<td>Embark on a UTM Abroad Co-Curricular Experience to Peru in our BIO210Y5 class through the IEC. Travel with a faculty member and work alongside local partners conducting research into health and hygiene. Prefer traveling in Canada? Check out the IEC’s UTM Across Canada program.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Throughout your undergraduate degree:</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>• use the Degree Explorer to ensure you complete your degree and program requirements.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>• see the Office of the Registrar about degree requirements and the Biology Undergraduate Advisor about program requirements.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>

**Revised on: 9/12/2017**
Skills developed in Biology

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Communication & interpersonal: write scientific reports; present research findings; interact professionally with a multidisciplinary team of researchers, technicians, students and professors; and literacy writing.

Research: collect and preserve field organisms; dissect preserved or euthanized specimen; inspect specimens; and analyze and evaluate information.

Technical: use specialized computer programs; perform laboratory procedures; maintain laboratory equipment and instrumentation; and comply with quality control procedures.

Quantitative: analyze data for trends and apply statistical tests to data.

Critical thinking & problem-solving: logically interpret trends and results.

Services that support you

- AccessAbility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Experiential Education Office (EEO)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of Student Transition (OST)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

Get involved

Check out student organizations on campus. Here are a few:

- Erindale Biology Society (EBS)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit www.utm.utoronto.ca/clubs.

Department of Biology

William G. Davis Building, Rm 3056
University of Toronto Mississauga
3359 Mississauga Rd
Mississauga ON Canada L5L 1C6

Undergraduate Advisor: 905-828-3999
d.matias@utoronto.ca
www.utm.utoronto.ca/biology

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions, Biology and Chemistry. The approximate average required for admission is low- to mid-80s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Life Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

What’s in your genes? Take BIO207H5 to find out about the principles of Mendelian inheritance and modern genetics. Our department also offers students access to our herbarium which houses about 95,000 specimens of vascular plants.

Effective biological training involves careful study of real organisms, both living and dead. Consequently, almost all Biology courses with laboratories involve students in one or more of the following activities with animals, plants, and/or microorganisms: collecting and preserving organisms from the field; dissecting or handling preserved or euthanized specimens (or properly anaesthetized living specimens); observing and making measurements on organisms maintained under laboratory conditions approved by the Canadian Council of Animal Care.
