CRIMINOLOGY, LAW & SOCIETY
(HBA)
Department of Sociology

Criminology, law & society provides a broad foundation in knowledge of law, crime and criminal justice. It is clearly connected to the legal profession, policing, parole and offers an excellent background for working in government and public policy on criminal behaviour.

Our teaching and research expertise covers diverse topics central to understanding and explaining law, crime and criminal justice. Students develop critical thinking, writing and numeracy skills and learn how to analyze, understand and address real life issues, all in preparation for further education and employment.

Sneak Peek

How does gender impact crime? Find out in SOC219H5! Topics may include gender and court outcomes and women’s prisons. Discover how race, gender and social inequalities shape legal institutions, the law, and the broader social context in SOC216H5.

Our department spearheads the Peel Social Lab (PSL): a lab dedicated to gathering, storing, analyzing and sharing data on the UTM and broader Peel region, which fosters experiential learning opportunities for students. By incorporating data gathering efforts into undergraduate sociology classes, the PSL gives students hands-on experience in research design and analysis conducted on Peel region society. Such work provides students with valuable research skills, while helping students establish contacts within the wider Peel region.
