

EXCEPTIONALITY IN HUMAN LEARNING (HBSc)

Department of Psychology

Exceptionality in Human Learning (EHL) is an interdisciplinary program offered as a major or a specialist with a focus in human development, abnormal behaviour, and disability issues. This program provides a broad scholarly foundation for addressing issues concerning children and adults who have disabilities and/or are gifted. Interested students might include:

- those who at a later stage may wish to pursue more advanced work in psychology, special education, rehabilitation, social work, group home management, adult retraining, or study in areas related to hearing or visual impairment, learning disabilities, developmental delay, physical disability
- those wanting to know more about the psychology, sociology and biology of exceptional individuals, particularly as these become issues of public policy.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we've pulled together information and interesting suggestions to get you started. As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using [My Program Plan](#) found at www.utm.utoronto.ca/program-plans

Programs of Study (POSt)

- Specialist Program ERSPE1883 Exceptionality in Human Learning (Science)
- Major Program ERMAJ1883 Exceptionality in Human Learning (Science)

*Consult the Academic Calendar for greater detail on course requirements, program notes and degree requirements.

EXCEPTIONALITY IN HUMAN LEARNING

Skills developed in Exceptionality in Human Learning

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Communication: formulate and defend positions; good listening, clarifying, questioning, and responding skills; and sensitivity to cultural and ethnic diversity.

Research: use criteria to evaluate and make decisions, as well as carry out tasks with thoroughness and precision.

Critical thinking & problem-solving: understand complex problems and identify potential solutions, as well as approach problems from a variety of perspectives.

Organizational: identify goals; manage time; multitask; and work independently and collaboratively with others.

Get involved

Check out student organizations on campus. Here are a few:

- Psychology Association of Undergraduate Students of Erindale (P.A.U.S.E).
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit www.utm.utoronto.ca/clubs.

Services that support you

- AccessAbility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Experiential Education Office (EEO)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of Student Transition (OST)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions and Biology. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select Psychology admissions category, but will not officially be admitted to a formal program of study (Major, and/or Minor) until after first year or after second year (Specialist).

Sneak Peek

How different is a 3 year-old from a 5 year-old? Take PSY210H5 and get introduced to developmental psychology. Topics include historical and philosophical perspectives as well as empirical research on age-related changes in perceptual, cognitive, and social processes. What is abnormal adult behaviour? Take PSY240H5 and learn about the causes and treatment of disorders, diagnosis and assessment, biological and psychological interventions, prevention, as well as legal and ethical issues.
