

PSYCHOLOGY (HBSc)

Department of Psychology

Psychology is the science that examines the structure and function of behaviour in humans and animals. It is concerned with the processes by which behaviour is acquired, maintained, and developed through adaptive interaction with the physical and social aspects of the environment. Emphasis is placed on the genetic, physiological, sensory, cognitive, personal development, and social structures that mediate behaviour.

Our faculty complement includes scientists who study personality, social behaviour, development, abnormal behaviour, cognition, perception, and behavioural neuroscience. Our research reflects many analytic approaches to the investigation of behaviour and includes the study of both humans and animals. This range and diversity of our research expertise is reflected in our undergraduate program, which is offered as a Specialist, Major and Minor.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we've pulled together information and interesting suggestions to get you started. As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using [My Program Plan](#) found at www.utm.utoronto.ca/program-plans

Programs of Study (POSt)

- Specialist Program ERSPE1160 Psychology (Science)
- Major Program ERMAJ1160 Psychology (Science)
- Minor Program ERMIN1160 Psychology (Science)

PSYCHOLOGY

Skills developed in Psychology

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Communication: formulate and defend positions; good listening, clarifying, questioning, and responding skills; and sensitivity to cultural and ethnic diversity.

Research: use criteria to evaluate and make decisions, as well as carry out tasks with thoroughness and precision.

Critical thinking & problem-solving: understand complex problems and identify potential solutions, as well as approach problems from a variety of perspectives.

Organizational: identify goals; manage time; multitask; and work independently and collaboratively with others.

Get involved

Check out student organizations on campus. Here are a few:

- Psychology Association of Undergraduate Students of Erindale (P.A.U.S.E).
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit www.utm.utoronto.ca/clubs.

Services that support you

- AccessAbility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Experiential Education Office (EEO)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of Student Transition (OST)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions and Biology. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select Psychology admissions category, but will not officially be admitted to a formal program of study (Major, and/or Minor) until after first year or after second year (Specialist).

Sneak Peek

Is your personality unique? Dig in to contemporary personality research in PSY230H5. Topics include measurement of individual differences; genetic, biological, cultural, and cognitive causes of individual differences in personality traits; and individual differences in unconscious processes, goals, values, and emotions. What is abnormal adult behaviour? Take PSY240H5 and learn about the causes and treatment of disorders, diagnosis and assessment, biological and psychological interventions, prevention, as well as legal and ethical issues.
