Choosing Your Programs

- Programs of study: definition and timing
- Link between programs and careers
- Selecting programs: How, When and Where?
What is a Subject POS?

Subject POS = Program of Study

Specialists
Consists of 10.0 to 18.0 credits
Includes at least 4.0 300/400 level credits, of which 1.0 must be at the 400 level

Majors
Consists of 6.5 to 9.0 credits
Includes at least 2.0 300/400 level credits

Minors
Consists of 4.0-4.5 credits
Includes at least 1.0 300/400 level credit
When do I select my program(s)?

• **Programs must** be selected once a student has completed or expects to have completed **4.0 or more credits by the end of the session**.

• **Many programs have entry requirements**, which may include specific courses, minimum grades in courses, and/or minimum cumulative grade point average (CGPA). Check the Academic Calendar now for detailed information.

• Students wishing to change their programs can do so in the future (during the published request periods, for Type 2 and 3 programs).
True or False?

- Most students have a clear understanding of careers.
- The program of study I pick now will determine my lifelong career.
- I should pick my program of study based on what job areas are booming.
- You should know what program of study you want (everyone else does).
- An undergraduate degree in Arts and/or Science means that I will be unemployable after graduation.
Link Between Program of Study and Careers

Program
- Biology
- Chemistry
- Computer Science
- Environmental Science
- Forensic Science
- Geology/Earth Science
- Geography
- Math/Statistics
- Physics

Career
- Lab Technician
- Financial Planner/HR
- Professor/Real Estate
- Biostatistician/PR
- Physician
- Food Scientist
- Wildlife Biologist
- Research Associate
- Radiation Therapist
- Pharmaceutical Sales
- Toxicologist
- Teacher
- Network Admin
- Water control Manager
Link Between Program of Study and Careers

Program

- CCIT
- Professional Writing
- Philosophy
- Sociology
- Women and Gender
- Anthropology
- Political Science
- Linguistics
- History
- English

Career

- HR, Event Planning Writer, P.R.
- Credit Analyst
- Program Coordinator
- Television Producer
- Research Assistant
- Financial Advisor
- Sales
- Editorial Assistant
- Management Trainee
- Lawyer, teacher
- Youth Worker
Transferable Skills

- Communication (written and oral)
- Writing
- Researching
- Analyzing
- Problem Solving
- Information Gathering
- Quantitative
- Technical

Program Combinations

Minimum program combination is required to complete your degree:

1 specialist  or

2 majors  or

1 major and 2 minors

Maximum program combinations allowed:
- Students may combine up to 3 programs
- Up to 2 of these may be specialists and/or majors

*Check Academic Calendar for any program specific exceptions.*
Types of Programs

**Type 1** Unlimited Enrolment (no entry requirements; unlimited space)
- *e.g. Philosophy minor*

**Type 2** Limited Enrolment (entry requirements; unlimited space)
- Requirements as published in the Academic Calendar
- *e.g. Biology major*

**Type 3** Limited Enrolment (entry requirements; limited space)
- Some requirements published in the Calendar
- CGPA requirements based on applicant pool
- Additional information/interview may be required
- *e.g. Interactive Digital Media specialist*
Program Combo = Degree Type

Degree type earned is determined by program combination:

Chemistry major (Science) + Biology major (Science) = HBSc

History major (Arts) + Philosophy minor (Arts) + Sociology minor (Arts) = HBA

English major (Arts) + Psychology major (Science) = HBA or HBSc

*Check Academic Calendar for any program specific exceptions.*
Select a Program First, Identify Career Possibilities Later

- Any possibilities in your current subjects?
- Follow your skills and interests
- Explore other subjects
  - Sit in on lectures
  - Review textbooks/materials
  - Talk to professors, academic advisors, current students
  - Take a course and see what you think
Generate Career Ideas, Identify Program Possibilities Later

- Learn more about your career ideas to see if they are suitable for you
- Examine your skills, values, interests and personal characteristics; what patterns or themes emerge?
- Research careers that seem to fit and learn more by reading, talking, experiencing
- Find the programs that support these careers
- [http://www.utm.utoronto.ca/careers/career-learning-network](http://www.utm.utoronto.ca/careers/career-learning-network) → resources → Career Cruising → Explore Careers
- Career Counsellors can help...
Also Consider…

• Combining programs to increase marketability

• Consider programs that enhance your individual development

• Take courses in other areas of study: Humanities/Social Science/Science

• Make sure that you are aware of the deadlines for dropping or adding a course.

• Refer to the UTM Academic calendar (online)
When to Apply: Type 1 Programs

- **Enrolment Period:** Anytime

- Review the “Program Selection Guide” for more info

- Type 1 programs have no entry requirements, other than the completion of a minimum of 4.0 credits.

- Type 1 programs do not require departmental approval to become active
When to Apply: Type 2 & 3 Programs

First Request Period
• Request programs: March 13 to April 30, 2017 (NOW!)
• Accept invitations: May 19 to July 28, 2017

Who should use this?
Students completing 4.0 credits by the end of the Winter 2017 session (April)

Second Request Period
• Request programs: June 12 to August 25, 2017
• Accept invitations: September 5 to September 17, 2017

Who should use this?
Students completing 4.0 credits by the end of the Summer 2017 session (August)
How to Apply for Subject POSs

• **Log into ACORN.** From the menu on the left side, select “Enrol & Manage”, and then “Programs”.

• Enter the **program title or code(s)**, which can be found in the Academic Calendar and Registration Guide (i.e. ERMAJ1478).

• Select the program from the list, review the information in the pop-up box, then click “Enrol” (for Type 1) or “Request to Enrol” for (Type 2 & 3).

• For Type 1 programs, you will immediately be listed as “Currently Enrolled”.

• For Type 2 and Type 3 programs, the status will be listed as “Requested”.

*Visit ACORN How-to - Program Enrolment* [help.acorn.utoronto.ca/how-to/](http://help.acorn.utoronto.ca/how-to/)
Accept / Decline Program “Invitations”

• The Academic department(s) will determine your eligibility for program(s) you have requested (for Type 2 & 3 programs).

• You will be “Invited” if you meet the entry requirements.

• To accept an offer, click on “Accept” for the program that you want to accept. Remember to accept the program invitations by the deadline!

• To drop/delete a program, click the gear icon in the top right corner of the program you want to remove, then select “Remove Program”.

• It is a good idea to meet with an Academic Advisor before making changes to your program(s) of study on ACORN.
Program Selection: Other Considerations

• Once you have earned at least 4.0 credits (or are on track to have 4.0 credits), ensure you are in a minimum program combination, or you will not be able to add courses on ACORN for the next session.

• Even if you don’t meet the entry requirements for your program(s) of choice, you must make alternate selections, even temporarily (e.g. Type 1 programs). These can be deleted when no longer needed.

• You may request/change programs in future Subject POSSt request periods (Type 1 programs can be changed anytime).
Program Selection: Other Considerations

- Program entry and requirements are determined by the related department! See the online Academic Calendar for details.
- Some programs require 4.0 credits with final grades for entry (transfer credits and/or CR notation would not count as part of the 4.0 credits for program entry in this case).
- Some programs (for example, Communication, Culture, Information & Technology and Computer Science) have different (higher) fee structures. Visit the Student Accounts website (www.fees.utoronto.ca) for more information.
- Apply to multiple programs as a safety measure, and consider developing an alternate plan...
Parallel Planning

Why create a Parallel Plan?

• Many programs at UTM have entry requirements set by the department that a student must meet in order to be admitted, such as CGPA, grades in certain courses, etc. (Type 2)

• Some programs also have limited space, which means entry can be competitive and isn’t guaranteed even if you meet the published entry requirements. (Type 3)

• Students interested in Type 2 and 3 programs are strongly encouraged to develop a parallel plan → an alternate program plan should you not be able to pursue your first choice (either after first year, or at all).
Parallel Planning: Alternate Program Options

What if I don’t get into my program after first year?

- If you are close to meeting the entry requirements for your preferred program, you can keep taking courses towards your planned program(s) if possible, and request the program during the next Subject POSt request round. **In the meantime, select temporary and/or alternate programs.**

- Think about what alternate programs you may be interested in pursuing, so you can start building related courses into your timetable. This way, if meeting the entry requirements for your program of choice (now or in the future) seems unrealistic, you can transition into your alternate programs.
Parallel Planning: Career & Further Education Options

- Re-evaluate your strengths, weaknesses, and interests
- Ask yourself the following:
  - What were my reasons for considering this program?
  - How do these reasons connect with who you are?
  - Could there be other careers that are more suitable to who you are?
- Have you explored whether you could still work in your fields of interest with different programs?
- Make an appointment with a Career Counsellor for a one-on-one session to explore your options
Parallel Planning: Career & Further Education Options

Consider further education options that match your goals and interest!

If pursuing your undergraduate degree in alternate programs, you could still explore a post-graduate degree/diploma/certificate in your areas of interest:

- Post-graduate diploma/certificate at college level (some lead to professional designations)
- Professional degrees (medicine/law/dentistry/pharmacy/teaching/nursing/physiotherapy/OT/social work/etc.)
- Masters programs, including MBA
- Courses/programs at School of Continuing Studies
- And beyond!
