Accessibility for Ontarians with Disabilities Act (AODA)

Customer Service Standard

The University of Toronto is committed to providing an equitable and inclusive environment. To achieve this goal, the University depends on the full participation of all members of its community – students, faculty, staff and alumni – to identify remove and reduce barriers to learning, teaching and working.

Concerns of Accessing Services

If someone is having difficulty accessing University services due to a disability:
Students can contact the Accessibility services on their campus.
Faculty or Staff or Members of the Public can contact the AODA officer at www.aoda.utoronto.ca.

More information regarding the AODA is available at www.aoda.utoronto.ca

What is a Disability?

As defined by the AODA, a disability is:

(a) any degree of physical disability, infirmity, malformation or disfigurement that is caused by bodily injury, birth defect or illness and, without limiting the generality of the foregoing, includes diabetes mellitus, epilepsy, a brain injury, any degree of paralysis, amputation, lack of physical coordination, blindness or visual impediment, deafness or hearing impediment, muteness or speech impediment, or physical reliance on a guide dog or other animal or on a wheelchair or other remedial appliance or device,

(b) a condition of mental impairment or a developmental disability,

(c) a learning disability, or a dysfunction in one or more of the processes involved in understanding or using symbols or spoken language,

(d) a mental disorder, or

(e) an injury or disability for which benefits were claimed or received under the insurance plan established under the Workplace Safety and Insurance Act, 1997; (“handicap”).
We all play a role in creating a positive environment at the University of Toronto. Here are a few helpful accommodation tips for meetings and events.

**Assistive devices**
Assistive devices help a person with a disability do everyday tasks and activities. Some devices include:
- Laptops, pocket recorders, digital audio players
- Hearing aid, teletypewriter (TTY) for people unable to speak or hear by phone
- Mobility devices such as scooters, walkers or crutches, magnifiers, white cane
- Communication boards (which use symbols, words or pictures to create messages) speech generating devices

For more information on assistive devices visit www.aoda.utoronto.ca

**Support people and animals**

A Support Person accompanies a person with a disability in order to help with communication, mobility, personal care or medical needs.

Please welcome the support person, but focus service and communication to the individual.

Support Animals are welcomed at the University.

Please do not distract the service animal – this includes talking, petting or feeding.

**Food and drink**
Order straws with beverages.
Request a list of ingredients with your catering order and display it near the food.

**Location**
Check whether your event space and washrooms are accessible at www.osm.utoronto.ca/accessibility.html
If required, schedule American Sign Language support early.
Consider using microphones with adjustable volumes for larger meetings.
Make sure there is appropriate event signage and adequate lighting if after hours.
Be aware that common background noise can be distracting
Remind presenters to speak in a clear, well-timed manner to allow assistive devices or ASL support to translate properly.
Ask the participant where he or she would like an accompanying support person to be seated.

**Communication**
Respond to accommodation requests in the same manner you would to other event-related questions.
Ensure invitations provide accessibility information, including parking, ramps and entrances and someone to contact for any accommodation needs.
To allow participants to use software to assist them if needed, email material before the meeting or event.

**Arrival**
Be aware if certain relied upon services are non operational (i.e elevators, TTC, automatic door entrances).
Plan for snow removal from stairs / ramps when required.
Clear clutter from hallways to ensure easier maneuverability.
Indicate entrances that might not be accessible and clearly state how one would go to the accessible entrance.
Remove any wires that might cross the floor, such as computer or phone lines.
