# The Anatomy of the
Mapping Note-taking System

Do you want to take more effective notes after your lectures?

Are you a visual learner?

If so, use the Mapping note–taking system to summarize key ideas and show comparisons and connections.

☑ Great for visual learning

☑ Shows connections and comparisons between different concepts

☑ Use after a lecture to consolidate information

☒ Can be overwhelming for complex concepts

1 Organize information using headings and lines

This will differentiate the importance.

Try using different:

☑ Colours ☑ Arrows/Connectors

☑ Shapes ☑ Formatting

2 Want a digital alternative?

Try these online tools to create maps:

☑ draw.io

☑ popplet.com

☑ spicynodes.org
