

2019-2020 Seminar Schedule

Date	Room	Speaker / Title	Host
Sept 13	CC2150	<p><u>Dr. Rosalind L. Murray, UTM</u></p> <p><i>Ecological immunity in insects</i></p> <p>Ms. Christine Palermo, UTM</p> <p><i>Metagenomic analysis of virus diversity and relative abundance in a eutrophic freshwater harbour</i></p> <p><u>Seminar Poster</u></p>	Dr. Adriano Senatore
Sept 20	CC2150	<p><u>Dr. Carly Ziter, Concordia University</u></p> <p><i>Thinking beyond the park: landscape structure, land-use history, and biodiversity shape urban ecosystem services</i></p> <p><u>Seminar Poster</u></p>	Dr. Marc Johnson
Sept 27	CC2150	<p><u>Dr. Heather L. Eisthen, Michigan State University</u></p> <p><i>Toxic relationships: Production, detection, and resistance to tetrodotoxin in rough-skinned newts</i></p> <p><u>Seminar Poster</u></p>	Dr. Joel Levine
Oct 4	CC2150	<p><u>Dr. Anthony G. Vecchiarelli, University of Michigan</u></p> <p><i>Homeostasis of a Bacterial Organelle</i></p> <p><u>Seminar Poster</u></p>	Dr. Tim Westwood Dr. George Espie
Oct 11	CC2150	<p><u>Dr. Clint D. Kelly, Université du Québec à Montréal</u></p> <p><i>Sexual selection and phenotypic diversity within and between the sexes in the Wellington tree weta</i></p> <p><u>Seminar Poster</u></p>	Dr. Rosalind Murray Dr. Shannon McCauley

Date	Room	Speaker / Title	Host
Oct 25	CC2150	<p><u>Dr. Jennifer A. Mitchell, University of Toronto</u></p> <p><i>Stable KLF4 protein in pluripotent stem cells overrides transcriptional control and blocks differentiation</i></p> <p><u>Seminar Poster</u></p>	Dr. Ho-Sung Rhee
Nov 1	CC2150	<p><u>Dr. Tariq A. Akhtar, University of Guelph</u></p> <p><i>Plant polyisoprenoids - secondary metabolites or physiologically important superlipids?</i></p> <p><u>Seminar Poster</u></p>	Dr. Michael Phillips
Nov 8	CC2150	<p><u>Dr. Marc Laflamme, University of Toronto Mississauga</u></p> <p><i>Complexity in the oldest animal communities</i></p> <p>Seminar Poster</p>	Dr. Adriano Senatore
Nov 15	CC2150	<p><u>Dr. Paul Galpern, University of Calgary</u></p> <p><i>The merits of messy fields: bees, beneficials, and crop yields in the Canadian Prairies</i></p> <p>Seminar Poster</p>	Dr. Helene Wagner
Nov 22	CC2150	<p><u>Dr. Andrew Lang, Memorial University</u></p> <p><i>Gene transfer agents: when bacteria catch phage and put them to work</i></p> <p>Seminar Poster</p>	Dr. Steven Short
Nov 29	CC2150	<p><u>Dr. Eliana Gonzalez-Vigil, University of Toronto Scarborough</u></p> <p><i>Peeling off the secrets of poplar cuticles</i></p> <p>Seminar Poster</p>	Dr. Katharina Braeutigam
Dec 6	CC2150	<p><u>Dr. Gabriel Gellner, University of Guelph</u></p> <p><i>Diversity-Stability patterns resulting from biologically constrained food web models</i></p>	Dr. Bailey McMeans

Date	Room	Speaker / Title	Host
		Seminar Poster	
Jan 10	CC2150	<u>Dr. Mingshan Xue, Baylor College of Medicine</u> <i>Inhibitory dysfunction in neurodevelopmental disorders</i> Seminar Poster	Dr. Baohua Liu
Jan 17	CC2150	<u>Dr. Natasha Mhatre, Western University</u> <i>A tool to sing and an amplifier to hear: the O. henryi story</i> Seminar Poster	Dr. Darryl Gwynne
Jan 24	CC2150	<u>Dr. Jannice Friedman, Queen's University</u> <i>Ecological genetics of life cycle variation in plants: the seed to succeed across spatial scales</i> Seminar Poster	Dr. Marc Johnson
Jan 31	CC2150	<u>Dr. Gary Bader, University of Toronto</u> Single Cell Genomics Seminar Poster	Dr. Adriano Senatore
Feb 7	CC2150	<u>Dr. Yuhong He, University of Toronto Mississauga</u> <i>Quantifying Vegetation Stress from the Leaf to Landscape Scale Using Remote Sensing</i> Seminar Poster	Dr. Ingo Ensminger
Feb 14	CC2150	<u>Dr. Konrad Lohse, The University of Edinburgh</u> <i>Deconstructing the genomic landscape of speciation in butterflies</i> Seminar Poster	Dr. Rob Ness
Feb 28	CC2150	<u>Dr. David S. Goodsell, Scripps Research Institute</u> <i>Modeling and Visualizing the Molecular Cell</i> Seminar Poster	Dr. Derek Ng

Date	Room	Speaker / Title	Host
Mar 6	CC2150	<p data-bbox="431 268 1024 302"><u>Dr. Amanda Moehring, Western University</u></p> <p data-bbox="431 342 1019 375"><i>Genetic and neural basis of female receptivity</i></p> <p data-bbox="431 415 626 449">Seminar Poster</p>	Dr. Joel Levine
Mar 13	CC2150	<p data-bbox="431 478 1065 512"><u>Dr. John Inglis, Dr. Samantha Hindle, bioRxiv</u></p> <p data-bbox="431 625 626 659">Seminar Poster</p>	Dr. Joel Levine
Mar 19	IB235	<p data-bbox="431 688 1102 722"><u>Dr. Heather E. McFarlane, University of Toronto</u></p> <p data-bbox="431 762 1166 829"><i>Sending the right signals for plant cell wall synthesis and remodelling</i></p> <p data-bbox="431 869 626 903">Seminar Poster</p>	Dr. Ingo Ensminger
Mar 26	IB235	<p data-bbox="431 930 1027 963"><u>Dr. Howard Lipshitz, University of Toronto</u></p> <p data-bbox="431 1003 1037 1071"><i>Regulation and function of mRNP complexes in <i>Drosophila</i></i></p> <p data-bbox="431 1110 626 1144">Seminar Poster</p>	Dr. Ted Erclik
Apr 2	IB235	<p data-bbox="431 1171 1138 1239"><u>Super Speaker: Dr. Steven Altschuler, University of California San Francisco (UCSF)</u></p> <p data-bbox="431 1278 964 1312"><i>Organizing principles for complex tissues</i></p> <p data-bbox="431 1352 626 1386">Seminar Poster</p>
