We understand that many students are confused by BIO400 and BIO481, the differences between the courses. Since students are not able to complete both courses for credit, the Department of Biology will be holding an information session on **March 16, 2021** for students interested in completing BIO400 and/or BIO481. Current student, alumni, faculty and staff will be on hand to answer questions about the two courses to help students make an informed decision regarding course selection.

**DEPARTMENT OF BIOLOGY**

**BIO400 & BIO481 Info Session**

Upper year Biology students who are interested in completing either our Internship Course (BIO400) or our 4th Year Thesis Course (BIO481) should attend this information session. At the session you will learn about the two courses in order to make an informed decision about your course selection. Past and current BIO400 & BIO481 students as well as staff and faculty will be on hand to answer questions.

**March 16 | 3-5pm | Zoom**

RSVP via MS Form
Questions to:
