BIOLOGY COMMUNITY ON QUERCUS:

All students currently in BIO152 or in a biology program will be automatically enrolled in this Quercus Community each fall.

If you are in a Biology program and wish to be added at any other time, please request access by emailing stephanie.dorego@utoronto.ca. If you do not wish to be enrolled in this community, you may opt out at any time by emailing Stephanie.

This Community will connect you with the Department of Biology. As a member of our organization you will learn about:

- Research opportunities within the labs (volunteer, work-study, summer jobs, etc.)
- Important information related to course offerings, program requirements and pre-requisites
- Awards such as NSERC Undergraduate Research Awards
- Seminars
- Initiatives such as the BioPath Professional Development Program
- Announcements of upcoming workshops and events
- And much, much, more

In addition to the Biology Portal Community, students are encouraged to follow UTM Biology on Twitter and Facebook for upcoming events and news.
