# ABOUT US

At the UTM Career Centre, we are dedicated to helping students and recent graduates (for up to two years after graduation) develop life-long career management skills and make informed career and job search decisions.

Our staff are career management professionals and trained student staff. We offer a wide variety of programs and services to help our students reach their career goals.

# OUR APPROACH

Our services are designed to allow students to choose where they want to begin. Options include on-site or online resources, one-to-one appointments or attending a workshop or event. The Career Centre staff can often be found at various locations around campus where we offer career and job search help “on the spot”.

We partner with student groups, faculty, staff, alumni and employers to offer tailored activities for UTM students. We develop and nurture relationships with the Mississauga, Peel Region and Greater Toronto communities to attract employers to post jobs on the Career Learning Network (CLN).
