COLLOQUIUM SEMINAR SERIES

EQUITY, DIVERSITY, AND INCLUSION IN THE SCIENCES: RELEVANCE AND APPLICABILITY

In this talk Dr. Kaniki will discuss the “recent” origins of EDI in research and innovation in grant programs and institutional mandates. She will provide context to the framework of embedding EDI in research environments and research design, and explore the potential for EDI in research and innovation in the Canadian academy.

Dr. Nicole Kaniki,
Director of Diversity, Equity and
Inclusion in Research and Innovation,
University of Toronto
