Digital health technologies is a broad area that refers to the transmission and storage of both medical and health related data. This course will explore current products in this space and review concept behind them as they pertain to: big data in health, regulation of medical devices and drugs, privacy regulation, product safety, usability and hazard analysis.

To Apply: Download the Teaching Assistant Application Form from the MBiotech ‘Opportunities’ website: [http://www.utm.utoronto.ca/mbiotech/opportunities/teaching-assistants](http://www.utm.utoronto.ca/mbiotech/opportunities/teaching-assistants)  
Submit the completed application form, together with your CV, via email to Ortensia Qendro at ortensia.qendro@utoronto.ca, MBiotech, UTM. Include: ‘BTC1899H TA’ in the subject line.

**NOTES:**  
1. Department Standards and Hiring Policies are available in the Department office and in the CUPE Local 3902 Unit 1 office.  
2. The positions posted above are tentative, pending final course determinations and enrolments.

These jobs are posted in accordance with the CUPE 3902 Unit 1 Collective Agreement. In accordance with the Employment Equity Policy, the University of Toronto encourages applications from qualified women and men, members of visible minorities, aboriginal peoples, and persons with disabilities.

Note: Although a graduate student’s preference as to the campus location of his/her TA appointment will be taken into account, both the initial TA appointment (or CI appointment) and the subsequent appointment obligation related to that appointment may be met through position(s) on any one of the three University of Toronto campuses (UTM, UTSC or St. George) in courses in the same discipline as the initial appointment. TAs will only be assigned to courses in fields in which they are or should be qualified to assist.
