Your Master's Degree in 12 months

The MMI Program is an accelerated professional degree at the University of Toronto Mississauga (UTM) which focuses on the management of the innovation process and the diffusion of new technologies. The program has a 12-month full-time structure consisting of an intensive 8-month academic course requirement and a 4-month internship term which provides students the opportunity to transfer their academic learnings to a corporate environment.

Our courses provide a strong foundation in economic analysis, technology management, business strategy, finance and marketing. The program provides knowledge, skills and strategic perspectives required for leaders and senior managers responsible for advancing the innovation process. This is done through small classes and research seminars that support interactive learning and maximum student-faculty dialogue.
