MASTER OF MANAGEMENT
OF INNOVATION

Class of 2021
Student Viewbook
On behalf of the Master of Management of Innovation (MMI) program at the University of Toronto, I would like to personally thank you for considering our students for internship opportunities. At MMI, we believe that growth for businesses, organizations, and even nations cannot be sustained without being at the forefront of innovation and harnessing it properly. Our program that graduates highly qualified young professionals who are ready to tackle today’s biggest business challenges and we know you will find great value in their contributions.

We provide a dynamic learning environment which perfectly blends rigorous training and innovative thinking into intense course work that covers the latest development in marketing, finance, business strategy, technology management and innovation policy. MMI’s summer internship program prepares students to embark on their professional journey by applying the knowledge gained in the classroom to bring fresh and innovative perspectives to the management of your organization.

We are pleased to have seen such enthusiasm and support for our students and program and we are excited to partner with you!

Sincerely,

Tanjim Hossain
Director, MMI
Associate Professor (Marketing)
Master of Management of Innovation - MMI
Your Master’s Degree in 12 months

The Master of Management of Innovation program attracts students with science, engineering and technology backgrounds. The program prepares students with the knowledge, skills and strategic perspectives required to become leaders and senior managers.

Our curriculum provides a strong foundation in economic analysis, technology management, business strategy, finance, accounting, marketing and policy. The required academic core courses focus on management and economics; students select three electives tailored to their interests and goals.

Students must complete the MMI internship in order to be eligible for graduation. The internship allows students to gain valuable, real-world work experience and an opportunity to demonstrate the key competencies the MMI program has taught them.

INTERNSHIP RECRUITMENT & SCHEDULING

TERM 1  
Core Courses/Electives  
September to December 2020

TERM 2  
Core Courses/Electives  
January to April 2021

TERM 3  
Internship  
May to August 2021

INTERNSHIP OBJECTIVES

Experiential learning is an integral part of the MMI program. Combined with on-the-job training, experiential learning has the power to inspire students not only to reinforce the material presented in lectures but also transfer it to the workplace and teach it to others. Hence, the main objectives of the internship are to:

1. Apply the knowledge and skills learned in the classroom to address innovation challenges and opportunities at the host organization;
2. Acquire new knowledge and skills from supervisors and other team members at the host organization;
3. Transfer knowledge and skills to the workplace;
4. Learn about opportunities and challenges in technology management at the host organization and;
5. Share the knowledge gained from work experience with all members of the class, faculty and staff of the MMI program.

CRITERIA FOR INTERNSHIP PLACEMENTS

- Internship term must end no later than August 31, 2021.
- Students must complete at least 10 weeks of full-time work (min. 30 hours/week) with an approved company.
- Internships cannot be of an entry-level administrative nature and must provide students with in-depth exposure to the employer’s organization.
- During the internship, students must have a qualified person responsible for evaluating their progress.
- The student’s supervisor must complete an evaluation of the student at the end of the internship term.
