

MEET THE NEXT GENERATION OF CITY BUILDERS

The **Master of Urban Innovation (MUI)** program provides students with world-class education and training to help build dynamic, inclusive cities, and foster innovation-based urban economic development.

Our students learn to think beyond traditional disciplinary boundaries, integrating knowledge from political science, economic geography, planning, public policy, urban economics, and management to solve the most important challenges facing cities today.

- ✓ Fresh, diverse perspectives
- ✓ Fully-supported recruitment process
- ✓ Long-term recruitment tool
- ✓ Employers are eligible for tax subsidies

Internships must:

- Run between May to April
- Be paid, full-time for 10 to 16 weeks
- Offer sufficient supervision and mentorship

- Host a field trip
- Participate on a panel
- Become a mentor
- Conduct a mock interview
- Design a capstone project

“

"The program prepared our student intern well to understand municipal affairs and processes. She also came into the role with an inquisitiveness and forward-thinking spirit that certainly in part is a result of the education she has received through the program...It was a fantastic experience."

Municipal Employer

"This was a terrific experience. The length of the internship is great and the knowledge MUI students bring to the field is valuable to our organization."

Industry Employer
