ANTHROPOLOGY (HBA)

Department of Anthropology

Anthropology is the study of humankind from its beginnings to the present day. Many disciplines concern themselves with humans, but only anthropology seeks to understand the whole panorama of human existence — in geographic space and evolutionary time — through comparative and holistic study.

The research interests of our full-time faculty members reflect the broad mandate of anthropology as a discipline. We cover the traditional four subfields of anthropology: archaeology, biological anthropology, linguistic anthropology and sociocultural anthropology. Our strengths include political and environmental anthropology as well as the anthropology of health.

Anthropology is unique in its incorporation of biological science and social science to pursue a deeper understanding of human existence. In an increasingly technological and global world, having human-centred scientific and cultural knowledge is more important than ever, and applicable to a wide range of job markets.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your studies at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The approximate average required for admission is mid- to high-70s. More information is available at [utm.utoronto.ca/viewbook](http://utm.utoronto.ca/viewbook).

**NOTE:** During the application process, applicants will select the Social Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

**Sneak Peek**

Learn about climate change, human rights, gender, refugee flows, Indigenous Peoples, language, and social justice. You can ethnographically explore such topics as humanitarianism, war, ecology, toxicity, smuggling economies, youth, politics of technoscience, non-governmental activism and the global “war on terror”. Gain a deeper understanding of Indigenous Peoples in North America and elsewhere through examining kinship, social organization, political structure, trade relations, economics, technology, art, and religion. Study world religions, religious beliefs and institutions, languages, and socio-cultural forms grounded in linguistic practices.

In Anthropology, we offer our students the opportunity to combine academics with meaningful service in the community.
