Biomedical Communications explores the visualization of bioscience knowledge for diverse audiences. The minor in Biomedical Communications is for students interested in interdisciplinary studies in health, science and visual communication. Enrolment and completion of the program requires concurrent enrolment in a science major plus an additional minor, or a science specialist program.

Most BMC minor courses emphasize visual or media-based communication of bioscience topics, and careful consideration of target audience characteristics and needs.

UTM Biology is a dynamic community. With nearly 40 active research scientists, more than seventy graduate students and many post-doctoral fellows doing state-of-the-art research using the latest techniques, our students will have the opportunity to learn from the best. Our undergraduate research projects and summer student placements in research labs will give students valuable, first-hand experience working in a laboratory environment.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Programs of Study (POSt)

• Minor Program ERMIN0840 Biomedical Communications (Science)

Check out...

Have you always wanted to try three-dimensional digital forensic facial reconstruction? Human facial anatomy, traditional reconstruction techniques, and the use of 3D animation software are the core areas of study in HSC405. Using this knowledge, students reconstruct the facial identity of an individual known only from cranial skeletal remains.

What can I do with my degree?

The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for graduates: Medical Illustrator, Technical writer; Art Administrator; Health Promotion and Wellness Coordinator; Medical Website Marketing Director; Health Care Administrator; Medical Imaging Technical; Consultant.

Workplaces: Media and animation companies; Hospital media departments; Pharmaceutical companies; Government agencies; Advertising agencies; Science centres, Museums
**BIOMEDICAL COMMUNICATIONS MINOR Program Plan**

**HOW TO USE THIS PROGRAM PLAN**
Read through each year. Investigate what appeals to you here and in any other Program Plans that apply to you. Visit www.utm.utoronto.ca/program-plans to create your own plan using My Program Plan. Update your plan yearly.

**1ST YEAR**
- Enroll in BIO152 & BIO153.
- Choose a program of study (Subject POS) once you have completed 4 credits. Use the Degree Explorer and the Academic Calendar to plan your degree.
- Develop foundational academic skills and strategies by enrolling in a uOntDE course. Build community and gain academic support through LAUNCH. Join a RGASC Peer Facilitated Study Group.

**BUILD SKILLS**
- Use the Co-Curricular Record (CCR). Search for opportunities beyond the class room, and keep track of your accomplishments.
- Attend the Get Hired Fair through the Centre (CC) to learn about on- and off-campus opportunities.
- Attend the Experimental Education Fair.
- Networking simply means talking to people and developing relationships with them. Start by joining the Erindale Biology Society (EBS). Follow them @ utmEBS. Go to the EBS Meet the Prof Night, or the Biology department’s Walk with your Professor.
- Visit the UTM Library Reference Desk.

**BUILD A NETWORK**
- Attend events held by the International Education Centre (IEC), whether you are an international or domestic student. Explore your culture and other cultures through weekly/regular conversations, Language Conversation Circles, debates, and activities to enhance your global and intercultural mindset.
- Engage in programs like the Global and Intercultural Fluency Training Series (GIFTS) to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own.

**BUILD A GLOBAL MINDSET**
- Speak to the Biology Undergraduate Advisor for biology program advice and details.
- Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC.
- Check out Careers by Major at the CC to see potential career options.

**PLAN YOUR ACADEMICS**
- Complete HSC200.
- Students who plan to complete HSC402/HSC403/HSC404/HSC405 should complete the 2nd year prerequisites. Students can also choose to complete courses from the 3rd year list that are offered in the winter term.
- Use the Degree Explorer and the Academic Calendar to ensure you complete your degree and program requirements.

**2ND YEAR**
- Complete HSC200.
- Students who plan to complete HSC402/HSC403/HSC404/HSC405 should complete the 2nd year prerequisites. Students can also choose to complete courses from the 3rd year list that are offered in the winter term.
- Apply for the Research Opportunity Program (ROP) courses BIO299Y and BIO399Y. Attend the RGASC’s P.A.R.T. to enhance your research skills.
- Use the Career & Co-Curricular Learning Network (CLNs) to find postings for on- and off-campus work and volunteer opportunities as well as Work-Study.
- Ask your professor about volunteering in their lab.

**PLAN FOR YOUR FUTURE**
- What’s your next step after undergrad?
- Considering further education? Research application requirements, prepare for entrance exams (LSAT, MCAT), and research funding options (OGS, NSERC, CIHR).
- Market your skills to employers. Get your resume critiqued at the CC. Attend the CC workshop Now That I’m Graduating What’s Next?
- Write a strong application for further education. Attend the CC’s Mastering the Personal Statement workshop.
- Ready to transition from the classroom to the workplace? Check out the Recent Graduate Opportunities Program (RGOP).

**3RD YEAR**
- Complete 1.0 CR from the following: HSC300/HSC301/HSC302/HSC307.
- Students can also choose to complete 4th year courses this year if they have completed the prerequisites.
- Throughout your undergraduate degree:
  - see the Office of the Registrar about degree requirements and the Biology Undergraduate Advisor about program requirements.

**4TH OR FINAL YEAR**
- Complete 1.5 credits from the following: HSC401/HSC402/HSC403/HSC404/HSC405/HSC406.
- Conduct a research project under the supervision of a faculty member through BIO481Y5. Speak to the Biology Undergraduate Advisor for advice and details.
- Log on to ACORN and request graduation.

**REFERENCE**
- Consult the Academic Calendar for greater detail on course requirements, program notes and degree requirements.
Skills developed in Biomedical Communications

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Communication & interpersonal: write scientific reports; present research findings; interact professionally with a multidisciplinary team of researchers, technicians, students and professors; and literacy writing.

Research: collect and preserve field organisms; dissect preserved or euthanized specimen; inspect specimens; and analyze and evaluate information.

Technical: use specialized computer programs; perform laboratory procedures; maintain laboratory equipment and instrumentation; and comply with quality control procedures.

Quantitative: analyze data for trends and apply statistical tests to data.

Critical thinking & problem-solving: logically interpret trends and results.

Get involved

Check out the 100+ student organizations on campus. Here are a few:

- Erindale Biology Society (EBS)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit www.utm.utoronto.ca/clubs.

Services that support you

- Accessibility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Equity, Diversity & Inclusion Office (EDIO)
- Experiential Education Unit (EEU)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

Department of Biology

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions, Biology and Chemistry. The approximate average required for admission is low- to mid-80s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Life Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

Have you wondered about the visual representation of forensic demonstrative evidence in Canadian courtrooms? HSC403 explores Forensic anthropology, biology and visual communication theory in new media which develops visual problem solving skills and critical analysis of visualizations.

How are digital learning environments evaluated? HSC402 focuses on the design, development and evaluation of biology and health sciences education through learning management systems, simulations, tutorials, games and more. HSC402 looks into the theory behind emerging communications technologies and its application through prototype design.
