

ENVIRONMENTAL SCIENCE (HBSc)

Department of Geography, Geomatics and Environment

Environmental Science is an interdisciplinary study of complex environmental problems involving the natural world and human impacts. Students can tailor the scientific focus of the program to their own interests, by choosing courses from Geographical and Earth Science perspectives; Biological/Ecological perspectives; and Physical/Chemical perspectives. Fieldwork, experiential learning, and research opportunities are important to the Environmental Science program. Courses on Social and Policy perspectives are also part of the program; no matter which pathway is followed, some courses on Social and Policy Perspectives are required. The premise is that those who will develop our scientific knowledge and technological capacities must also have a basic understanding of environmental management, policy, and the human-environment relationship. The Environment programs at UTM are all ECO Canada accredited. Graduates of major and specialist programs get a head start with an integrated Environmental Professional in-Training designation (EPt).

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we've pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using [My Program Plan](#) found at www.utm.utoronto.ca/program-plans

Programs of Study (POSt)

- Specialist Program ERSPE1061 Environmental Science (Science)
- Major Program ERMAJ1061 Environmental Science (Science)
- Minor Program ERMIN1061 Environmental Science (Science)
- ERCER1287 Certificate in Sustainability

Ever considered an internship? Apply for JEG400/401Y5 and gain hands-on experience with the City of Mississauga or the Region of Peel.

What can I do with my degree?

The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for Graduates: Remediation specialist; Conservation officer; Forestry technician; Hazardous Waste planner; Outdoor Guide; Wildlife technician; Wetlands conservation supervisor; Conservation education coordinator; Environmental risk/impact assessor; Recycling coordinator; Forester; Environmental consultant; Activist; Lobbyist.

Workplaces: Waste Management; Private industry including utilities, construction, energy; Environmental planning; Government; Communications; Transportation; Scientific research groups; Architecture or surveying companies; Forestry; Mining.

ENVIRONMENTAL SCIENCE

MAJOR Program Plan

HOW TO USE THIS PROGRAM PLAN

Read through each year. Investigate what appeals to you here and in any other Program Plans that apply to you.

Visit www.utm.utoronto.ca/program-plans to create your own plan using [My Program Plan](#). Update your plan yearly.

	1 ST YEAR	2 ND YEAR
PLAN YOUR ACADEMICS*	<p>Enrol in ENV100Y5. Attain 2.0 credits in Quantitative and Basic Scientific Foundation.</p> <p>Choose a program of study (Subject POST) once you complete 4.0 credits. Use Degree Explorer and the Academic Calendar to plan your degree.</p> <p>Develop academic skills and strategies by enrolling in a utmONE First-Year Foundations Course. Build community and gain academic support through LAUNCH. Join a RGASC Peer Facilitated Study Group.</p>	<p>Enrol in ENV201H5. Attain 0.5 credits from our Life Sciences Core, 1.0 credits from our Physical Geographical and Earth Sciences Core and 0.5 credits in Analytical & Research Methods. View the Academic Calendar.</p> <p>Consider applying for Research Opportunity Program (ROP) courses ENV299Y and ENV399Y. Visit the EEU website for ROP Course Prerequisites. Attend the RGASC’s PART to enhance your research skills.</p>
BUILD SKILLS	<p>Use the Co-Curricular Record (CCR). Search for opportunities beyond the classroom, and keep track of your accomplishments.</p> <p>Attend the Experiential Education Fair to learn about experiential learning opportunities.</p>	<p>Use the Career & Co-Curricular Learning Network (CLNx) to find postings for on- and off-campus work and volunteer opportunities. Work on-campus through the Work-Study program. View position descriptions on the CLNx.</p> <p>Attend the Get Hired Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.</p>
BUILD A NETWORK	<p>Networking simply means talking to people and developing relationships with them. Start by joining the Student Association for Geography and Environment (SAGE).</p> <p>Visit the UTM Library Reference Desk.</p>	<p>Do you have a professor you would like to connect with? Ask them a question during office hours. Discuss an assignment. Go over lecture material. Don't be shy! Learn Tips On How to Approach a Professor available through the Experiential Education Unit (EEU).</p>
BUILD A GLOBAL MINDSET	<p>Engage with the many programs offered by the International Education Centre (IEC), whether you are an international or domestic student. Consider joining the Canada Eh? day trips or English Language Conversation Circles to deepen your global mindset.</p> <p>First-year international students can also take advantage of THRIVE-IN, a one-day conference dedicated to helping you start your UTM journey successfully.</p>	<p>Participate in International Education Week and engage in programs like Global and Intercultural Fluency Training Series (GIFTS) to build on your leadership and communication skills in global citizenship.</p> <p>Learn about and prepare for a future UTM Abroad Experience through the IEC to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own!</p>
PLAN FOR YOUR FUTURE	<p>Start by exploring the UTM Career Centre Model—a chance to reflect and choose what’s right for you with guided support. Access MyCareerCentre 24/7 for flexible, interactive career learning at your own pace.</p> <p>Connect with support in-person: Drop-in to an Academic & Career Planning Session to chat with Advisors and Career Counsellors. Visit the Career Corner in the Student Services Hub to chat with a Peer Career Assistant about resources that fit your goals.</p>	<p>Explore your options with the CC’s Job Shadow Program, In the Field, or a one-on-one with a Career Counsellor.</p> <p>Thinking about grad school? Attend the Graduate & Professional School Fair, research application requirements, admission tests, and explore funding options.</p> <p>Getting ready for work? Join workshops, drop-ins, and networking events to build experience and confidently share your skills – Register on CLNx.</p>

3 RD YEAR	4 TH OR FINAL YEAR
<p>Enrol in ENV330H5. Attain 0.5 credits in Field, Project-Based, Experiential, and Research Perspectives, 1.0 credits in Biogeochemical Perspectives and 0.5 credits in Social, Economic & Policy Perspectives. View the Academic Calendar.</p> <p>Throughout your undergraduate degree:</p> <ul style="list-style-type: none">Use the Degree Explorer to ensure you complete your degree and program requirements.See the Office of the Registrar and the Environment Programs Academic Advisor for support.	<p>What is Experiential Education? It means learn by doing! Gain experience designing and executing an independent senior thesis by enrolling in JEG417Y5 Honours Thesis.</p> <p>Speak to the Environment Programs Academic Advisor about enrolling in a course with hands on experience such as ENV496H5 (Restoration Ecology II) and ENV497H5 (Environmental Research Project).</p> <p>Log on to ACORN and request graduation.</p>
<p>Gain practical experience through ENV332H5, a practicum in Environmental project management. Learn field techniques in Haliburton forest with GGR379H5. Speak to the Environment Programs Academic Advisor.</p>	<p>Skills are transferrable to any job regardless of where you develop them. Consider a practical work-based experience through the internship course JEG400Y5. Speak to the Environment Programs Academic Advisor.</p>
<p>Establish a professional presence on social media (e.g., LinkedIn).</p> <p>Attend department research seminars and participate in departmental networking events organized by SAGE.</p> <p>Thinking about life after UTM? Connect with a UTM alumnus through the CSE’s Alumni Mentorship Program!</p>	<p>Join a professional association. Check out the Ontario Environment Network or the Canadian Association of Geographers. Go to the Annual Conference of the Environmental Studies Association of Canada.</p> <p>Apply for your EPT designation from ECO Canada, which gives students in the ENV programs access to internships, jobs, and professional job search support during and after graduation.</p>
<p>Expanding your intercultural awareness and developing intercultural skills will help you in your academics, personal growth and are highly sought out by employers.</p> <p>Earn credits overseas! Apply to study for a summer term, or year at one of 170+ universities. Speak to the IEC for details about Course Based Exchange, funding and travel safety. Attend Global Learning Week to learn about the various opportunities available to you!</p>	<p>Engage in programs like ISTEP and THRIVE to support your transition out of the University!</p>
<p>Need job search support? Book a coaching appointment with an Employment Strategist for personalized guidance.</p> <p>Ready to take the next step for grad school, visit the Pursue Learning section on MyCareerCentre and drop-in to chat with a Career Counsellor about grad school prep tips.</p> <p>Want to grow your network? Attend the Career Centre Networking Series and Let’s Talk About events — Register on CLNx.</p>	<p>Join the Now That I’m Graduating, What’s Next? session to start building your job search plan. Attend the Sweats to Suits Job Search Conference and discover diverse career pathways.</p> <p>Work with the Employment Strategist team to review your resume and prep for interviews.</p> <p>Still figuring things out? Meet with a Career Counsellor to create a career plan and attend a Career Wellness session to support your well-being along the way.</p>

*Consult the Academic Calendar for greater detail on course requirements, program notes and degree requirements.

ENVIRONMENTAL SCIENCE

Skills developed in Environmental Science

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Research: Collect and preserve field organisms as well as utilize logical reasoning to interpret results/data derived from scientific experimentation.

Technical: Use computer to manipulate and display data and comply with quality control procedures while conducting experiments.

Quantitative: Apply statistical packages to data to test for significance.

Communication: Support scientific findings by writing literature reviews of journal articles, and interact professionally with a multidisciplinary team of researchers, technicians, students and professors.

Get involved

Check out the 100+ student organizations on campus. Here are a few:

- Student Association for Geography and Environment (SAGE)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a full listing of clubs on campus visit the **Student Groups and Societies Directory**

Services that support you

- **Accessibility Services (AS)**
- **Career Centre (CC)**
- **Centre for Student Engagement (CSE)**
- **Equity, Diversity & Inclusion Office (EDIO)**
- **Experiential Education Unit (EEU)**
- **Health & Counselling Centre (HCC)**
- **International Education Centre (IEC)**
- **Office of the Registrar (OR)**
- **Recreation, Athletics and Wellness Centre (RAWC)**
- **Robert Gillespie Academic Skills Centre (RGASC)**
- **UTM Library, Hazel McCallion Academic Learning Centre (HMALC)**

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions, Biology and Chemistry or Physics. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Chemical & Physical Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

Abundant opportunities are available for students to become involved in environmental practice, research and fieldwork (e.g., ENV299Y5 Research Opportunity Program, ENV332H5 Environmental Sustainability Practicum, and ENV497H5 Environmental Research Project). Students may also have the opportunity to complete a practical work placement course related to their specific area of interest (JEG400/401Y5 Environmental Geography Internship).

Our curriculum stresses the integrative nature of the study of the environment. Environment faculty members encourage students to become involved in critical thinking, cross-disciplinary collaboration, and the application of concepts to real-life problems.
