Forensic Science the study of physical evidence in a modern legal context. It is best defined as “science in service to the courts.” UTM’s Forensic Science program, the first of its kind in Canada, is designed to provide students with an understanding of scientific analyses, theories, laboratory skills, applications, and field techniques — while allowing the student to emphasize one particular area in greater detail.

We have developed well-established partnerships with organizations including the Centre of Forensic Sciences, the Office of the Chief Coroner for the Province of Ontario, the Ontario Provincial Police, the RCMP, and numerous other police services and agencies worldwide.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Programs of Study (POSt)

- Major Program ERMAJ0205 Forensic Science (Science)
- Minor Program ERMIN0205 Forensic Science

Check out...

How can a body be used as forensic evidence? Take FSC316H5 and find out about autopsy procedures, pathology, identification, forensic imaging, and more. Take FSC407H5 to learn forensic field techniques like collecting and analyzing evidence found at a 'crime scene', in the UTM Forensic Science Crime Scene House.

What can I do with my degree?

The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for Graduates: Coroner; Forensics scientist; Operations research analyst; Computer-related crime investigator; Image enhancement specialist; Polygraph examiner; Speech scientist; Law enforcement.

Workplaces: Government; Forensic laboratories; Medical examiners/coroner offices; Hospitals; Toxicology Laboratories; Police agencies; Insurance companies.
## HOW TO USE THIS PROGRAM PLAN

Read through each year. Investigate what appeals to you here and in any other Program Plans that apply to you.

Visit [www.utm.utoronto.ca/program-plans](http://www.utm.utoronto.ca/program-plans) to create your own plan using My Program Plan. Update your plan yearly.

### 1st Year

### BUILD SKILLS

Use the Co-Curricular Record (CCR) Search for opportunities beyond the classroom, and keep track of your accomplishments. Attend the Get Hired Fair through the Career Centre (CC) to learn about on- and off-campus opportunities. Attend the Experiential Education Fair.

### BUILD A NETWORK

Networking simply means talking to people and developing relationships with them. Start by joining the UTM Forensics Society (IVNVI). Find them on Facebook and follow them on Twitter. Go to IVNVI’s Meet the Prof Night. Visit the UTM Library Reference Desk.

### BUILD A GLOBAL MINDSET

Engage with the many programs offered by the International Education Centre (IEC), whether you are an international or domestic student. Consider joining the Canada Eh? day trips or English Language Conversation Circles to deepen your global mindset.

### PLAN FOR YOUR FUTURE

Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC. Check out Careers by Major at the CC to see potential career options.

### HOW TO USE THIS PROGRAM PLAN

Read through each year. Investigate what appeals to you here and in any other Program Plans that apply to you.

Visit [www.utm.utoronto.ca/program-plans](http://www.utm.utoronto.ca/program-plans) to create your own plan using My Program Plan. Update your plan yearly.

### 1st Year

- Enrol in courses BIO150H5, 153H5, CHM110H5, 120H5, FSC289Y5, MAT112H5, 134H5/113H5, 136H5/139H5/130Y5/137Y5, PXY138H5, 137H5. Don’t forget to enrol in ISP100H5 if your second Major will be Anthropology or Chemistry.
- Choose a program of study (Subject POS) once you complete 4.0 credits. Use the Degree Explorer and the Academic Calendar to plan your degree.
- Build community and gain academic support through LAUNCH. Join a RUAG. Peer-Facilitated Study Group.

### 2nd Year

### 3rd Year

- Enrol in courses FSC303H5B/300H5, 330H5, 360H5. Throughout your undergraduate degree, 330H5, 360H5.

### 4th or Final Year

- Enrol in courses STA220H5/PSPY201H5. Consider applying for the ROP course FSC99Y. Visit the EEU website for ROP Course Prerequisites. Attend the RGASC’s PART to enhance your research skills.

### BUILD SKILLS

- Use the Co-Curricular Record (CCR) to search for opportunities beyond the classroom, and keep track of your accomplishments.
- Attend the Get Hired Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.
- Attend the Experiential Education Fair.

### BUILD A NETWORK

- Networking simply means talking to people and developing relationships with them. Start by joining the UTM Forensics Society (IVNVI).
- Find them on Facebook and follow them on Twitter. Go to IVNVI’s Meet the Prof Night.
- Visit the UTM Library Reference Desk.

### BUILD A GLOBAL MINDSET

- Engage with the many programs offered by the International Education Centre (IEC), whether you are an international or domestic student.
- Consider joining the Canada Eh? day trips or English Language Conversation Circles to deepen your global mindset.
- First-year international students can also take advantage of THREVIEW, a one-day conference dedicated to helping you start your UTM journey successfully.

### PLAN FOR YOUR FUTURE

- Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC.
- Check out Careers by Major at the CC to see potential career options.
Skills developed in Forensic Science

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

**Technical:** make and record accurate measurements; make observations, draw diagrams and take photographs; crime scene investigation; and use statistical tests.

**Communication:** report writing; verbal testimony; understanding of cultural diversity; translate scientific evidence; and analyze and present data.

**Organizational:** casework; teamwork; and understanding legal issues related to evidence.

**Problem-solving:** identify alternative solutions and interpret lab findings.

**Research:** draw conclusions based on the evidence obtained and communicate results of investigative work through proper channels based on the conclusions drawn.

Get involved

Check out the 100+ student organizations on campus. Here are a few:

- UTM Forensics Society (IVNVI)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit Student Groups & Societies Directory

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions, Biology, Chemistry and Physics. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

**NOTE:** During the application process, applicants will select the Forensic Science admissions category but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

What is the role of a coroner? Take FSC239Y to find out about crime scene investigation, the role of the expert witness, forensic pathology, forensic chemistry, forensic botany, forensic entomology, forensic anthropology, forensic dentistry, psychology and toxicology.

Our courses provide students the opportunity to learn about all aspects of forensic science in the classroom and to apply their knowledge to practical assignments using state-of-the-art technology and instruments. Courses are taught by professionals who bring their own expertise and unique field experience to the classroom.
