The Geography BSc offers a broad perspective on physical geography. In-depth studies include climatology, hydrology and ecosystems, with possible specialization in biogeochemistry, arctic regions, landscape ecology, natural resources and urban climate. The curriculum stresses the integrative nature of the discipline as well as the development of skills in geographical information analysis.

Our department prides itself in being at the forefront of student experience at UTM. Our faculty are very successful and active researchers, maintaining research programs, laboratories and supervise graduate students at UTM. They are also outstanding teachers, with several of our faculty being recognized with teaching awards from both inside and outside the university. We think that the wonderful opportunities and support in our department will make your degree in Geography not only a meaningful and valuable learning experience, but also an exciting and fun one.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Programs of Study (POST)

- Specialist Program ERSPE2070 Geography (Science)
- Major Program ERMAJ2070 Geography (Science)
- Minor Program ERMIN2070 Geography (Science)

Check out...

Learn how to conduct field research at a remote forest field camp for five days in GGR379H5. Ever thought of how snow and ice dominate the Canadian landscape? Seek to understand the dynamics of snow and ice in a hydrological context through GGR317H5.

What can I do with my degree?

The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for Graduates: Resource management specialist; Outdoor guide; Soil conservationist; Pollution control consultant; Habitat researcher; Atmospheric data technician; Agronomist; Water resources specialist.

Workplaces: Government; Utilities; Print, digital and broadcast media; Consulting firms; Transportation; Forestry; Mining.
GEOGRAPHY (HBSc)
MAJOR Program Plan

1ST YEAR
Enrol in GGR111H5 and 112H5. Attain 1.0 credits from Foundational Credits as listed in the Academic Calendar. Complete 8.0 Field Days by your final year. Choose a program of study (Subject POS) once you complete 4.0 credits. Use the Degree Explorer and the Academic Calendar to plan your degree.

Develop foundational academic skills and strategies by enrolling in a UTbDC course. Build community and gain academic support through LAUNCH. Join a RGASC Student Facilitated Study Group.

BUILD SKILLS
Use the Co-Curricular Record (CCR) Search for opportunities beyond the classroom, and keep track of your accomplishments.

Attend the Get Hired Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.

Attend the Experiential Education Fair.

BUILD A NETWORK
Networking simply means talking to people and developing relationships with them. Start by joining the Student Association for Geography and Environment (SAGE).

Visit the UTM Library Reference Desk.

BUILD A GLOBAL MINDSET
Engage with the many programs offered by the International Education Centre (IEC), whether you are an international or domestic student. Consider joining the Canada Eh! day trips or English Language Conversation Circles to deepen your global mindset.

First-year international students can also take advantage of THRIVENV, a one-day conference dedicated to helping you start your UTM journey successfully.

Participate in International Education Week and engage in programs like Global and Intercultural Fluency Training Series (GIFTS) to build on your leadership and communication skills in global citizenship.

Learn about and prepare for a future UTM Abroad Experience through the IEC to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own!

Earn credits overseas: Apply to study for a summer term, or year at one of 170+ universities. Speak to the IEC for details about Course Based Exchange, funding and travel safety. Attend Global Learning Week to learn about the various opportunities available to you!

WHAT'S YOUR NEXT STEP AFTER UNDERGRAD?

Expand your intercultural awareness and developing intercultural skills will help you in your academics, personal growth and are highly sought out by employers.

For details, see the Academic Calendar. Why not gain experience executing an independent senior thesis? Enrol in JEG417Y5. Speak to the Geography Academic Advisor.

Market your skills to employers. Get your resume critiqued and network with employers.

WHAT'S YOUR NEXT STEP?

Entering the workforce? Evaluate your career options through the CC's Experiential Education Fair. Attend the RGASC's Prerequisites. Attend the RGASC's Program for Accessing Research Training (PART) to gain research skills.

Write a strong application for further education. Attend the CC's Job Shadow Program. Consider a practical work-based experience through the internship course JEG400/401Y5. Speak to the Geography (Science) Faculty Advisor for details.

Planning on Graduate School? Apply to JEG417Y5, an honours thesis course.

SKILLS
Skills are transferrable to any job regardless of where you develop them. Consider a practical work-based experience through the internship course JEG400/401Y5. Speak to the Geography Academic Advisor.

NOW THAT I'M GRADUATING WHAT'S NEXT?

Graduate School? Consider applying for the Research Opportunity Program (ROP) course GGR399Y. Visit the EEU website for ROP Course Prerequisites. Attend the RGASC's Program for Accessing Research Training (PART) to enhance your research skills.

Engage in programs like ISTEP and THRIVE to support your transition out of the University!
Skills developed in Geography

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Technical: use specialized field equipment, satellite imagery and state of the art software; apply experience with computer modeling; conduct surveying and sampling; and conduct field studies.

Research: use statistical applications, as well as gather, organize and analyze data.

Communication: read and construct graphs/maps; summarize results of experiments; communicate across cultures; and maintain records.

Services that support you

- Accessibility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Equity, Diversity & Inclusion Office (EDIO)
- Experiential Education Unit (EEU)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

Get involved

Check out the 100+ student organizations on campus. Here are a few:

- Student Association for Geography and Environment (SAGE)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a full listing of clubs on campus visit the Student Groups and Societies Directory

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Social Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

How was the surface of the earth shaped? In GGR201H5 you’ll learn about energy flows through the land and human modification of the landscape. What is hydrology? Find out in GGR217H5, a course that studies the transfers of water and energy in the Earth system.

Our students use equipment satellite imagery and state-of-the-art computers and software in the GIS laboratory. We also have an active weather station on campus monitoring local weather conditions. Students can run their own project related to weather monitoring using the latest data logging instruments.
