INFORMATION SECURITY (HBSc)

Department of Mathematical & Computational Sciences

Information Security is an interdisciplinary blend of Computer Science and Mathematics. Students will learn about cryptography, network security and digital forensics. The Information Security program provides you with tools for the modern technology driven world.

Our award winning faculty bring knowledge and experience from a variety of backgrounds. Your time in this program will be enriched with Research Opportunity Courses and with small group project and thesis courses with the faculty.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Program of Study (POSt)

• Specialist Program ERSPE1038 Information Security (Science)

Check out...

Don’t let those black hats crack your systems! Take CSC347H5 and learn how to identify and avoid common software development flaws that leave software vulnerable. Take CSC427H5 to learn about network attacks and defenses, operating system and application vulnerabilities, viruses, spyware, social engineering attacks, privacy, and digital rights management.

What can I do with my degree?

The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for graduates: Information Security Analyst; Computer Systems Specialist; CSIS Communication Analyst; CSIS intelligence officer; Strategic planner; Network architect; Computer network specialist; Computer programmer; Operations research analyst; Database developer.

Workplaces: Computer/telecommunication companies; Government; Banks; Insurance; Engineering firms.
**INFORMATION SECURITY SPECIALIST Program Plan**

**1ST YEAR**
- Choose a program of study (Subject POS) once you complete 4.0 credits. Use the Degree Explorer and the Academic Calendar to plan your degree.
- Develop foundational academic skills and strategies by enrolling in a uTDALE course. Build community and gain academic support through LAUNCH. Join a RGASC Peer Facilitated Study Group.

**BUILD SKILLS**
- Use the Co-Curricular Record (CCR). Search for opportunities beyond the classroom, and keep track of your accomplishments.
- Attend the Get Hired Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.
- Attend the Experience Education Fair.

**BUILD A NETWORK**
- Networking simply means talking to people and developing relationships with them. Start by joining the Mathematical and Computational Sciences Society (MCSS). Follow them @utmmcss.
- Get to know your TA. View the Math Learning Centre Schedule on the MCS departmental website. Visit the UTM Library Reference Desk.

**BUILD A GLOBAL MINDSET**
- Attend events held by the International Education Centre (IEC), whether you are an international or domestic student. Explore your culture and other cultures through weekly/regular conversations, Language Conversation Circles, debates, and activities to enhance your global and intercultural mindset.
- Engage in programs like the Global and Intercultural Fluency Training Series (GIFTS) or learn about and prepare for a future UTM Abroad Experience through the IEC to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own!

**PLAN FOR YOUR FUTURE**
- Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC.
- Check out Careers by Major at the CC to see potential career options.

**2ND YEAR**
- Consider applying for a Research Opportunity Program (ROP) courses CSC299Y, CSC399Y and CSC499Y. Visit the EEU website for ROP Course Prerequisites. Attend the RGASC’s Program for Accessing Research Training (PApRT) to enhance your research skills.

**BUILD SKILLS**
- Consider a practical work-based experience through UofT’s Professional Experience Year-Go-op — Canada’s largest undergraduate paid internship program that offers 12- to 16-month work placements. Speak to the Academic Advisor & Undergraduate Program Administrator (CSC).

**BUILD A NETWORK**
- Do you have a professor you really like or connect with? Ask them a question during office hours. Discuss an assignment. Go over lecture material. Don’t be shy! Learn Tips On How to Approach a Professor available through the Experience Education Unit (EEU).

**BUILD A GLOBAL MINDSET**
- Attend events held by the International Education Centre (IEC), whether you are an international or domestic student. Explore your culture and other cultures through weekly/regular conversations, Language Conversation Circles, debates, and activities to enhance your global and intercultural mindset.
- Engage in programs like the Global and Intercultural Fluency Training Series (GIFTS) or learn about and prepare for a future UTM Abroad Experience through the IEC to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own!

**PLAN FOR YOUR FUTURE**
- Explore careers through the CC’s Job Shadowing Program.
- Considering further education? Attend the CC’s Graduate & Professional Schools Fair. Talk to professors – they are potential mentors and references.

**3RD YEAR**
- Enrol in courses CSC343HS, 347H5, 363H5, 369H5, 373H5, MAT301H5 and 302H5.

**BUILD A NETWORK**
- Throughout your undergraduate degree:
  - use the Degree Explorer to ensure you complete your degree and program requirements.
  - see the Office of the Registrar and the Academic Advisor & Undergraduate Program Administrator (CSC) for assistance.

**BUILD A GLOBAL MINDSET**
- Use the Career & Co-Curricular Learning Network (CLN) to find postings for on- and off-campus work and volunteer opportunities.
- Work on-campus through the Work-Study program. View position descriptions on the CLN.

**PLAN FOR YOUR FUTURE**
- Establish a professional presence on social media (e.g., LinkedIn, Facebook, Twitter or blogs).
- Attend the UofT Electrical & Computer Engineering department’s Distinguished Lectures Series.

**4TH OR FINAL YEAR**
- Enrol in CSC358HS/458H5 and two of (CSC422H5, 423H5, 427H5, 490H5).

**BUILD A NETWORK**
- What is Experiential Education? It means learning by doing! Speak to the Academic Advisor & Undergraduate Program Administrator (CSC) about a workshop-based course such as CSC490HS (Capstone Design).

**BUILD A GLOBAL MINDSET**
- Conduct a research project under the supervision of a faculty member through CSC492HS and CSC493HS. Speak to the Academic Advisor & Undergraduate Program Administrator (CSC) for advice and details.

**PLAN FOR YOUR FUTURE**
- Earn credits overseas! Apply to study for a summer, term or year at one of 140+ universities. The MCS department has identified partners which are most relevant to our students. Speak to the IEC about UTM Abroad Experience for a future Global Expo Experience. Attend the Go Global Expo. See if you are eligible for International Experience Canada.

**BUILD A NETWORK**
- Learn about working abroad. Read up on worldwide employment trends and industry outlooks through GoinGlobal. Attend the Go Global Expo. See if you are eligible for International Experience Canada.

**BUILD A GLOBAL MINDSET**
- Attend the Connect IT Conference, the Grace Hopper celebration, the SecTor Expo, or Def Con.

**PLAN FOR YOUR FUTURE**
- Market your skills to employers. Get your resume critiqued at the CC. Attend the CC workshop Now That I’m Graduating What’s Next!

**BUILD A NETWORK**
- Write a strong application for further education. Attend the CC’s Mastering the Personal Statement workshop.

**BUILD A GLOBAL MINDSET**
- Ready to transition from the classroom to the workplace? Check out the Recent Graduate Opportunities Program (RGOP).

**BUILD A GLOBAL MINDSET**
- Conduct a research project under the supervision of a faculty member through CSC492HS and CSC493HS. Speak to the Academic Advisor & Undergraduate Program Administrator (CSC) for advice and details.

INFORMATION SECURITY

Skills developed in Information Security

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Research: analyze and evaluate information; develop innovative systems; and develop ideas for presentation at a conference or in a journal.

Technical: write, debug, and test programs and research, design and develop computer systems (e.g., new computer languages, simulations, system analysis, etc.).

Problem-solving: conceptualize models; formulate, model and solve problems from diverse areas; and collect, organize, analyze, and interpret results.

Communication: articulate, explain, and teach technical information to others, as well as question and probe to diagnose computer problems.

Organizational: manage time effectively and organize and maintain stored data.

Services that support you

- Accessibility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Equity, Diversity & Inclusion Office (EDIO)
- Experiential Education Unit (EEU)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- The Math Learning Centre (MLC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

Get involved

Check out the 100+ student organizations on campus. Here are a few:

- Mathematical and Computational Sciences Society (MCSS)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit www.utm.utoronto.ca/clubs.

Department of Mathematical & Computational Sciences

Deerfield Hall, Room 3018
University of Toronto Mississauga

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions and Calculus. The approximate average required for admission is low to mid 80s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Computer Science, Mathematics & Statistics admissions category but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

The first two years of the program are an introduction to broadly applicable tools and ideas. You'll learn computing languages including, Python (CSC108H5) and Java (CSC207H5), as well as mathematical techniques (CSC236H5) and data structures (CSC148H5 and CSC263H5).

Our computing facilities are excellent. We have over 400 Linux PCs, Windows PCs and Apple Macs. Course offerings are intended to serve a wide variety of student interests ranging from information processing to applying computers to other fields. Our faculty enjoy a strong world-wide reputation in varied fields of research including: human-computer interaction, computer vision, machine learning, robotics and computing education.
