

# THEATRE & DRAMA STUDIES (HBA)

Department of English & Drama

**Theatre & Drama Studies**, offered jointly with Sheridan Institute, involves the study of plays, actors, theatres, designers and audiences from the classical Greek stage to the most modern experimental performance. We give students the opportunity to earn a two-year (equivalent) conservatory diploma in professional actor training from Sheridan within a Specialist degree in performance history and theory and dramatic literature from UTM. This high-powered combined program prepares students for a career on the stage or behind the scenes in professional theatre world or for drama teaching at the high school or university level.

## FUTURE STUDENTS

### Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The approximate average required for admission is low- to mid-80s. An audition is also required for admission consideration. More information is available at [utm.utoronto.ca/viewbook](http://utm.utoronto.ca/viewbook).

**NOTE:** During the application process, applicants will select the Theatre & Drama admissions category but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

### Sneak Peek

Begin your acting career on the right foot. In DRS121H5 you'll receive Vocal, Physical, Textual, and Improvisational training. What is the relationship between a performance and its associated written text? Discover the techniques of dramaturgical analysis in DRE222H5.

Our students work on two to three productions per year in the Erindale Studio Theatre. In first and second year, production duties consist of backstage as well as technical and front-of-house work. In third year, students advance to supporting roles, and further prove their abilities through the Devised project. In fourth year, responsibilities progress to mostly featured roles, and a dramaturgical study of the plays.
