The Education Studies minor is for students interested in a variety of careers that involve educating and training others. Students will develop an understanding of the format and the rationale for particular instructional strategies, teaching methodologies, andragogy and pedagogy. The minor will help students advance skills in teaching, corporate training, e-learning, second language instruction and other related areas. Students will immerse themselves in courses related to equity and diversity; communication and conflict resolution; child, adolescent, and adult development; learning design, experiential learning and education within a global context. Through the Minor, they will develop leadership skills as they participate in field placements, community engagement activities, training and research opportunities and case studies; and will come to understand the importance of inclusivity/diversity both within an instructional framework and the community.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started. As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Skills developed in Education Studies

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

**Communication:** work cooperatively with others; understand group dynamics; present information effectively; write clearly; negotiate with others; and mediate conflict.

**Instructing:** present lessons in a comprehensive manner; provide one-to-one help; explain concepts clearly; assess proficiencies and recommend alternative strategies for learning.

**Analytical:** identify key issues in decision-making or problem solving; weigh alternatives and identify solutions; formulate questions relevant to clarifying a particular problem, topic, or issue; and research topics and present findings to groups.

**Mentoring & organizational:** supervise students in class and encourage learning; organize materials during class planning; and manage time effectively.

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Humanities admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

What are the fundamental skills involved in designing learning opportunities? Take EDS300H5 to study and practice these skills in the field. What common challenges do undergraduate students encounter in their first year of university? Find out in EDS377H5 where you will examine adult and student development theories, models of student engagement and more!

Experiential learning is embedded within the program’s courses and enables students to implement reflective practice based upon inquiry-based research, data gathering and assessment. Those interested in pursuing a career in teaching may wish to apply to a consecutive initial teaching program, an HR certification program, an ESL and or Adult Ed program or a Master’s program in education upon completion of their undergraduate degree.
