

ANTHROPOLOGY (HBA)

Department of Anthropology

Anthropology is the study of humankind from its beginnings to the present day. Many disciplines concern themselves with humans, but only anthropology seeks to understand the whole panorama of human existence — in geographic space and evolutionary time — through comparative and holistic study.

The research interests of our full-time faculty members reflect the broad mandate of anthropology as a discipline. We cover the traditional four subfields of anthropology: archaeology, biological anthropology, linguistic anthropology and sociocultural anthropology. Our strengths include political and environmental anthropology as well as the anthropology of health.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we've pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your studies at UTM. Read through the chart and create your own plan using **My Program Plan** found at www.utm.utoronto.ca/program-plans

Skills developed in Anthropology

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Cultural awareness & interpersonal: ability to obtain information about attitudes, customs, and beliefs; deep understanding of the human condition; and sensitivity to cultural differences and diversity.

Written & oral communication: attention to detail; present and defend a position; summarize results; and present theories/ideas/viewpoints in a comprehensive manner.

Technical: draw maps and construct models to scale; and photograph sites, objects, people, occasions.

Research & analysis: carry out data collection and evaluate research results.

Critical thinking & problem-solving: provide insight to social problems by supplying information as to how problems are dealt with in other cultures and adapt approaches used in public relations, marketing, or politics to different population groups.

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Social Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

How is power legitimized, authorized, and contested? You can ethnographically explore such topics as nation-building, non-governmental activism, human rights, and the global “war on terror”. Gain a deeper understanding of Aboriginal Peoples in North America and the ethnology of aboriginal cultures through exploring kinship, social organization, political structure, trade relations, economics, technology, art, and religion. Study world religions and ecology or religious violence and nonviolence.

In Anthropology, we offer our students the opportunity to combine academics with meaningful service in the community.
