ANTHROPOLOGY (HBA)

Department of Anthropology

Anthropology is the study of humankind from its beginnings to the present day. Many disciplines concern themselves with humans, but only anthropology seeks to understand the whole panorama of human existence — in geographic space and evolutionary time — through comparative and holistic study.

The research interests of our full-time faculty members reflect the broad mandate of anthropology as a discipline. We cover the traditional four subfields of anthropology: archaeology, biological anthropology, linguistic anthropology and sociocultural anthropology. Our strengths include political and environmental anthropology as well as the anthropology of health.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we've pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your studies at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

NOTE: During the application process, applicants will select the Social Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

How is power so powerful? You can ethnographically explore how the exercise of power is legitimized, authorized, and contested, examining such topics as nation-building, non-governmental activism, human rights, and the global "war on terror". Gain a deeper understanding of Aboriginal Peoples in North America and the ethnology of aboriginal cultures through exploring kinship, social organization, political structure, trade relations, economics, technology, art and religion. Study world religions and ecology or religious violence and nonviolence.

In Anthropology, we offer our students the opportunity to combine academics with meaningful service in the community.
