ANTHROPOLOGY (HBSc)

Department of Anthropology

Anthropology is the study of humankind from its beginnings to the present day. Many disciplines concern themselves with humans, but only anthropology seeks to understand the whole panorama of human existence — in geographic space and evolutionary time — through comparative and holistic study.

The research interests of our full-time faculty members reflect the broad mandate of anthropology as a discipline. We cover the traditional four subfields of anthropology: archaeology, biological anthropology, linguistic anthropology and sociocultural anthropology. Our strengths include forensic anthropology and the anthropology of health.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your studies at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Programs of Study (POSt)

- Specialist Program ERSPE0105 Anthropology (Science)
- Major Program ERMAJ0105 Anthropology (Science)

Check out...

Are you interested in the field of public health? Consider focusing your studies in the anthropology of health. Developed by Dr. Tracey Galloway, this stream combines science and humanism and is open to all students with the required prerequisites. The foundational course ANT220H5, offers students an opportunity to explore a broad range of topics on how medical anthropologists examine human health and illness in past and present populations.

What can I do with my degree?

The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for Graduates: Cultural resource management; Public health educator; Field technician; Museum technician; Forensic anthropologist; Primatologist; Archaeologist; Laboratory technician; Preservationist/restorer; First Nations conservator and stewardship liaison; Indigenous Service Worker; Community public health worker; Policy analyst; Health care consultant; Epidemiologist; Academic.

Workplaces: Community organizations; Environmental agencies; Police and Coroner’s office; Community health care centres; Archaeological consulting firms; Academica; Educational institutions; Government and International agencies; Museums and art galleries.
# ANTHROPOLOGY (HBSc) MAJOR Program Plan

## HOW TO USE THIS PROGRAM PLAN
Read through each year. Investigate what appeals to you here and in any other Program Plans that apply to you.
Visit www.utm.utoronto.ca/program-plans to create your own plan using My Program Plan.
Update your plan yearly.

## PLAN YOUR ACADEMICS
*Consult the Academic Calendar for greater detail on course requirements, program notes and degree requirements.

### 1ST YEAR
- Enrol in ANT101H5, ANT102H5 and ISP100HS.
  - Choose a program of study (Subject POS) once you complete 4.0 credits. Use the Degree Explorer and the Academic Calendar to plan your degree.
  - Develop foundational academic skills and strategies by enrolling in a uTOONE course. Build community and gain academic support through LAUNCH. Join a RGASC Peer Facilitated Study Group.

### 2ND YEAR
- Enrol in ANT200H5, ANT201H5, ANT202H5, ANT203H5, ANT220H5, ANT204H5 and (0.5 credit from ANT205H5 or ANT207H5).
  - Speak to the Anthropology Undergraduate Advisor or request Anthropology Undergraduate Advising to tailor your studies to a particular field of Anthropology (Health, evolution, forensics, archaeology).

Use the Career Learning Network (CLNx) to find postings for on- and off-campus work and volunteer opportunities.

### 3RD YEAR
- Enrol in 2.5 additional ANT credits of which at least 2.0 must be ANT science courses. At least 1.0 of the 2.5 credits must be at the 300 level and 0.5 at the 400 level.
  - Throughout your undergraduate degree:
    - use the Degree Explorer to ensure you complete your degree and program requirements.
    - see the Office of the Registrar and the Anthropology Undergraduate Advisor.

Learn techniques anthropologists use in the field! Apply for ANTH242H5 (Archaeological Fieldwork). View the Anthropology department Field School webpage for more information.

### FINAL YEAR
- What is Experiential Education? It means learn by doing! Enrol in courses with hands on experience like ANT439H5 (Advanced Forensic Anthropology), ANT441H5 (Advanced Bioarchaeology), ANT441H5 (Advanced Archaeological Fieldwork), or in seminar courses with discussion and debate, such as ANT430H5 (Special Problems in Biological Anthropology and Archaeology). Speak to the Anthropology Undergraduate Advisor.

Skills are transferrable to any job regardless of where you develop them. Need to strengthen your presentation skills? Consider taking ED332H5 which allows you to earn a course credit in addition to a placement opportunity as a RGASC Facilitated Study Group Leader.

### BUILD SKILLS
- Use the Co-Curricular Record (CCR). Search for opportunities beyond the classroom, and keep track of your accomplishments.

### BUILD A NETWORK
- Attend the Get Experience Fair through the Career Centre (CC) to learn about on- and off-campus opportunities, such as volunteering, on-campus jobs, and research experiences.

### BUILD A GLOBAL MINDSET
- Networking simply means talking to people and developing relationships with them. Start by joining the UTM Anthropology Society (UTMAS). Visit the Anthropology department’s Events webpage for the latest departmental and UTMAS event listings.

### PLAN FOR YOUR FUTURE
- Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC.
  - Check out Careers by Major at the CC to see potential career options.

*Details of the University of Toronto Mississauga Anthropology Undergraduate Advisor are available through the Experiential Education Unit (EEU).*
ANTHROPOLOGY (HBS)

Skills developed in Anthropology

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Cultural awareness & interpersonal: sensitivity to cultural differences and diversity; work cooperatively with others; and understand group dynamics.

Critical Thinking & Problem Solving: Apply the techniques and knowledge acquired to approach complex topics in a manner that embraces multiple perspectives.

Written & oral communication: attention to detail; present and defend a position; summarize results; and present theories/ideas/viewpoints in a comprehensive manner.

Technical: preserve objects by selecting chemical treatment, temperature, humidity; and draw maps and construct models to scale; photograph sites, objects, people, occasions.

Research & analysis: carry out data collection and evaluate research results; and catalogue information.

Get involved

Check out the 100+ student organizations on campus. Here are a few:

- UTM Anthropology Society (UTMAS)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit www.utm.utoronto.ca/clubs.

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The approximate average required for admission is low-to mid-80s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Life Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

What role do medical anthropologists play in understanding pandemics? Learn how anthropological methods examine the cultural and health implications of disease. How is archaeological data recovered in an excavation? Learn how archaeological data is organized and analyzed and what artifacts tell us about the human past.

UTM Anthropology has two new teaching laboratory spaces with a large collection of archaeological artifacts, fossils, and human skeletons. Learn human skeletal anatomy; examine fossil casts close up; or work with archaeological artifacts with a small group of peers, your TA, and the instructor.
