Biological Chemistry (HBSc)  
Department of Chemical & Physical Sciences

Biological Chemistry deals with the chemical processes of and relating to living organisms. The program, with its solid core of chemistry, plus the required biology and biochemistry courses, provides an interesting and challenging interdisciplinary study experience. Biological Chemistry examines nature at the molecular level by using a combination of synthetic, inorganic, analytical and physical chemistry as well as the tools of molecular biology. This program provides the context to understand the chemical reactions and interactions that occur in biological processes, as well as how chemical strategies can be used to control these systems. Students graduating from this program will be prepared for career paths in the biotechnology, biomedical and pharmaceutical sectors, as well as for research and teaching in related areas of chemistry and biology.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

Programs of Study (POSt)
- Specialist Program ERSPE1995 Biological Chemistry (Science)
- Specialist Program ERSPE1376 Chemistry (Science)
- Major Program ERMAJ1376 Chemistry (Science)
- Minor Program ERMIN1376 Chemistry (Science)

Check out...
Is health care where your heart is at? Take CHM444H5 and learn about drug development. Curious about forensics? Learn how to analyze physical evidence — drugs and alcohol, gunshot residue, explosives and paint analysis — through FSC311H5. Interested in science education? Consider CPS398H5, Teaching Opportunities in Sciences.

What can I do with my degree?
The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

Careers for Graduates: Food scientist; Brewmaster; Biological technician; Quality controller; Pulping and bleaching manager; Biochemistry technologist; Toxicologist; Water purification chemist; Regulatory / government affairs specialist; Forensic laboratory analyst; Medical lab technologist; Industrial hygienist; Doctor.

Workplaces: Cosmetics and fragrance production; Pulp and paper production; Pharmaceuticals; Government; Healthcare; Food and beverage production; Plastic manufacturing; Industrial inspection firms; Scientific R&D companies.
# Biological Chemistry Specialist Program Plan

**1st Year**
- Choose a program of study (Subject POS5) once you complete 4.0 credits. Use the Degree Explorer and the Academic Calendar to plan your degree.
- Develop foundational academic skills and strategies by enrolling in a stuntNCE course. Build community and gain academic support through LAUNCH. Join a RGASC (CC) Facilitated Study Group.
- Do you have a professor you really like or connect with? Ask them a question during office hours. Discuss an area of interest with them. Start by joining the RGASC (CC) Facilitated Study Group Leader.
- Attend workshops offered by the Office of the Registrar and the CC.
- Apply for on-campus or off-campus work and volunteer opportunities.
- Attend the Get Experience Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.
- Networking simply means talking to people and developing relationships with them. Start by joining the Erindale Chemical and Physical Sciences Society (ECPS). Make sure to go to the ECPS’s Meet the Pros Night.
- Visit the UTM Library Reference Desk.
- Attend events held by the International Education Centre (IEC), whether you are an international or domestic student. Explore your culture and other cultures through weekly/twelve conversations. Language Conversation Circles, debates, and activities to enhance your global and intercultural mindset.
- Engage in programs like the Global and Intercultural Fluency Training Series (GIFTS) or meet about and prepare for a future UTM Abroad Experience through the IEC to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own.
- Earn credits overseas! Apply to study for a summer, term or year at one of 140+ universities. The CPS department has identified partners which are most relevant to our students. Speak to the IEC for details about Course Based Exchange, funding and travel safety.
- Make sure to go to the ECPS’s Reference Desk. Search for Tips On How to Approach a Professor available through the ECPS.
- Attend the E.A. Robinson Science Education Lecture through the CPS department.
- Thinking about life after UTM? Connect with a UTM alumnus through the CSE’s Alumni Mentorship Program.

**2nd Year**
- Enroll in courses CHM211H5, 231H5, 242H5, 243H5, JCP221H5, BIO206H5, 207H5; 0.5 MATZSCSTA credit at any level.
- Throughout your undergraduate degree:
  - use the Degree Explorer to ensure you complete your degree and program requirements.
  - see the Office of the Registrar and the CPS Academic Counsellor.
- Skills are transferable to any job regardless of where you develop them. Need to strengthen your presentation skills? Consider a role as a RGASC (CC) Facilitated Study Group Leader.
- Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC.
- Check out Careers by Major at the CC to see potential career options.
- Explore careers through the CC’s Job Shadowing Program.
- Consider further education? Attend the CC’s Further Education Showcase. Talk to professors – they are potential mentors and references.

**3rd Year**
- Consider applying for the Research Opportunity Program (ROP) course CHM399Y. Visit the EEU website for ROP Course Prerequisites. Attend the RGASC’s Program for Accessing Research Training (P.A.R.T.) to enhance your research skills.
- Explore your interests. Why not apply to become a Wellness Ambassador with the Health & Counselling Centre’s Physical Health team?
- Establish a professional presence on social media (e.g. LinkedIn).
- Attend the E.A. Robinson Science Education Lecture through the CPS department.
- Thinking about life after UTM? Connect with a UTM alumnus through the CSE’s Alumni Mentorship Program.
- Earn credits overseas! Apply to study for a summer, term or year at one of 140+ universities. The CPS department has identified partners which are most relevant to our students. Speak to the IEC for details about Course Based Exchange, funding and travel safety.
- Learn about working abroad. Read up on worldwide employment trends and industry outlooks through GoinGlobal. Attend the Go Global Expo. See if you are eligible for International Experience Canada.
- What’s your next step after undergrad?
- Considering further education? Research application requirements, prepare for admission tests (LSAT, MCAT), and research funding options (OGS, NSERC, CIHR).

**4th or Final Year**
- Enroll in CHM399Y5 or CPS489Y5 or CPS5400Y5 or JCB487Y5 or (BCH472Y1 or BCH473Y1, with permission of the CHM Program Advisor) and 1.5 credits from the following courses: BIO324H5 or CHM412H5 or CHM444H5 or CHM446H5 or JCP422H5 or JCP463H5 or JCB472H5 or CHM447H1 or CHM479H1 or any 400 level BCH lecture course.
- Log on to ACORN and request graduation.
- Market your skills to employers. Get your résumé critiqued at the CC. Attend the CC workshop Next? That’s What’s Next!
- Write a strong application for further education. Attend the CC’s Mastering the Personal Statement workshop.

**Build Your ACADEMICS**
- Use the Co-Curricular Record (CCR). Search for opportunities beyond the classroom, and keep track of your accomplishments.
- Attend the Get Experience Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.

**Build Your SKILLS**
- Use the Career Learning Network (CLN) to find postings for on- and off-campus work and volunteer opportunities.
- Skills are transferable to any job regardless of where you develop them. Need to strengthen your presentation skills? Consider a role as a RGASC (CC) Facilitated Study Group Leader.

**Build Your NETWORK**
- Networking simply means talking to people and developing relationships with them. Start by joining the Erindale Chemical and Physical Sciences Society (ECPS). Make sure to go to the ECPS’s Meet the Pros Night.
- Visit the UTM Library Reference Desk.
- Attend events held by the International Education Centre (IEC), whether you are an international or domestic student. Explore your culture and other cultures through weekly/twelve conversations. Language Conversation Circles, debates, and activities to enhance your global and intercultural mindset.
- Engage in programs like the Global and Intercultural Fluency Training Series (GIFTS) or meet about and prepare for a future UTM Abroad Experience through the IEC to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own.
- Earn credits overseas! Apply to study for a summer, term or year at one of 140+ universities. The CPS department has identified partners which are most relevant to our students. Speak to the IEC for details about Course Based Exchange, funding and travel safety.
- Learn about working abroad. Read up on worldwide employment trends and industry outlooks through GoinGlobal. Attend the Go Global Expo. See if you are eligible for International Experience Canada.
- What’s your next step after undergrad?
- Considering further education? Research application requirements, prepare for admission tests (LSAT, MCAT), and research funding options (OGS, NSERC, CIHR).

**Build Your GLOBAL MINDSET**
- Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC.
- Check out Careers by Major at the CC to see potential career options.
- Explore careers through the CC’s Job Shadowing Program.
- Considering further education? Attend the CC’s Further Education Showcase. Talk to professors – they are potential mentors and references.

**Plan For Your Future**
- Choose a program of study (Subject POS5) once you complete 4.0 credits. Use the Degree Explorer and the Academic Calendar to plan your degree.
- Develop foundational academic skills and strategies by enrolling in a stuntNCE course. Build community and gain academic support through LAUNCH. Join a RGASC (CC) Facilitated Study Group.
- Do you have a professor you really like or connect with? Ask them a question during office hours. Discuss an area of interest with them. Start by joining the RGASC (CC) Facilitated Study Group Leader.
- Attend workshops offered by the Office of the Registrar and the CC.
- Apply for on-campus or off-campus work and volunteer opportunities.
- Attend the Get Experience Fair through the Career Centre (CC) to learn about on- and off-campus opportunities.
- Networking simply means talking to people and developing relationships with them. Start by joining the Erindale Chemical and Physical Sciences Society (ECPS). Make sure to go to the ECPS’s Meet the Pros Night.
- Visit the UTM Library Reference Desk.
- Attend events held by the International Education Centre (IEC), whether you are an international or domestic student. Explore your culture and other cultures through weekly/twelve conversations. Language Conversation Circles, debates, and activities to enhance your global and intercultural mindset.
- Engage in programs like the Global and Intercultural Fluency Training Series (GIFTS) or meet about and prepare for a future UTM Abroad Experience through the IEC to strengthen and enhance your intercultural skill set, and learn about other cultures while sharing your own.
- Earn credits overseas! Apply to study for a summer, term or year at one of 140+ universities. The CPS department has identified partners which are most relevant to our students. Speak to the IEC for details about Course Based Exchange, funding and travel safety.

- What’s your next step after undergrad?
- Considering further education? Research application requirements, prepare for admission tests (LSAT, MCAT), and research funding options (OGS, NSERC, CIHR).
Skills developed in Biological Chemistry

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

Research: conduct journal research and utilize logical reasoning to interpret results/data derived from scientific experimentation.

Technical: experience with state-of-the-art laboratory technology and instruments; ability to use computer programs to manipulate and display data; and comply with quality control procedures while conducting experiments.

Quantitative: analyze data for trends and apply statistical packages to data to test for significance.

Communication: organize research ideas and information into comprehensive reports and interact professionally with a multidisciplinary team of researchers, technicians, students and professors.

Get involved

Check out the 100+ student organizations on campus. Here are a few:

- Erindale Chemical and Physical Sciences Society (ECPS)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit www.utm.utoronto.ca/clubs.

Services that support you

- Accessibility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Experiential Education Unit (EEU)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. Your admission average is calculated using English plus your next best five courses. The Grade 12 prerequisites for Biological Chemistry are Advanced Functions, Biology, Chemistry and Physics. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Chemical & Physical Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

Support is available to first-year chemistry students through tutorial classes, office hours, Facilitated Study Groups and a 24/7 system of Virtual Office Hours. In addition, all of our students have access to new, state-of-the-art teaching laboratories.

Upper-year students can become involved in cutting-edge research projects in our research labs. We recently launched the Centre for Medicinal Chemistry, an interdisciplinary centre for the development of new drugs. It will become a research hub of leading scientists dedicated to developing innovative approaches in the fight against cancer and other diseases.
