COMMUNICATION, CULTURE, INFORMATION & TECHNOLOGY (HBA)

Institute of Communication, Culture, Information and Technology

CCIT graduates are prepared for the fastest growing sectors globally – technology and media. Communication, Culture, Information and Technology (CCIT) focuses on the generation, diffusion, and social impact of new technologies, and how media and technologies interact with commerce, culture and communication. The CCIT program combines academic courses in the arts and social sciences taught at UTM with hands-on applied courses in digital media and technology taught at both UTM and the Sheridan Institute of Technology and Advanced Learning, offering an appealing opportunity for students to concurrently obtain both an undergraduate Honours Bachelor of Arts degree and a Certificate in Digital Communications from Sheridan.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we’ve pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using My Program Plan found at www.utm.utoronto.ca/program-plans

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The approximate average required for admission is mid- to high-70s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Communication, Culture, Information + Technology admissions category but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

How has the web influenced culture? Find out in CCT260H5! You’ll also learn how websites are designed and managed. Curious about immersive environment design? Take CCT285H5 to develop skills in the areas of bitmap/vector graphics, audio/visual production and editing, 2D/3D modeling and animation and video game design. If you prefer interactive media design, try your hand at mobile app development and mobile game development in CCT286H5.

Cool research areas in CCIT you can get involved in are: digital marginalization/digital inclusion, mobiles and wearable interaction, game design, gender and technology, mediated communication, digital trace data.
