

COMMERCE: ACCOUNTING (BCom)

Department of Management

In the Accounting Specialist students learn the body of knowledge and skills required to become a professional accountant. The program starts with foundational courses in Accounting, Economics and then offers a range of more advanced courses which cover topics and competencies in the professional curricula.

Our students are taught how to think like professionals. This helps prepare students to become Chartered Professional Accountants after graduation. The program produces graduates who have the personal and professional attributes required of professional accountants - graduates who demonstrate initiative and leadership, apply strategic thinking, develop innovative ideas, adapt to change and are strong communicators.

MAKE THE MOST OF YOUR TIME AT UTM!

We want to help you maximize your university experience, so we've pulled together information and interesting suggestions to get you started, although there are many more! As you review the chart on the inside pages, note that many of the suggestions need not be restricted to the year they are mentioned. In fact, activities such as joining an academic society, engaging with faculty and seeking opportunities to gain experience should occur in each year of your study at UTM. Read through the chart and create your own plan using **My Program Plan** found at www.utm.utoronto.ca/program-plans

FUTURE STUDENTS

Admission to UTM

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions and Calculus. The approximate average required for admission is mid-80s. More information is available at utm.utoronto.ca/viewbook.

NOTE: During the application process, applicants will select the Commerce admissions category but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

Sneak Peek

How is accounting used by management? In MGT223H5, you will learn the conceptual and analytical foundations of cost accounting. This course equips students with the tools for establishing costing systems. Expand your understanding of Financial Accounting in MGT220H5. This course uses cases to develop critical thinking and communication skills. Topics of study include accounting's conceptual framework, accounting for assets, and valuation of bonds.

The Accounting specialist program is taught by a team of academics and professional accountants, with leading edge expertise and strong connections to the accounting profession.
