**Environmental Science** is an interdisciplinary study of complex environmental problems involving the natural world and human impacts. Students can tailor the scientific focus of the program to their own interests, by choosing courses from Geographical and Earth Science perspectives; Biological/Ecological perspectives; and Physical/Chemical perspectives. Fieldwork, experiential learning, and research opportunities are important to the Environmental Science program. Courses on Social and Policy perspectives are also part of the program; no matter which pathway is followed, some courses on Social and Policy Perspectives are required. The premise is that those who will develop our scientific knowledge and technological capacities must also have a basic understanding of environmental management, policy, and the human-environment relationship.

**Programs of Study (POST)**
- Specialist Program ERSPE1061 Environmental Science (Science)
- Major Program ERMAJ1061 Environmental Science (Science)
- Minor Program ERMIN1061 Environmental Science (Science)

**Check out...**
Ever considered an internship? Apply for JEG400/401Y5 and gain hands-on experience with the City of Mississauga or the Region of Peel.

**What can I do with my degree?**
The career you choose will depend on your experience and interests. Visit the Career Centre to explore your career options.

**Careers for Graduates:** Remediation specialist; Conservation officer; Forestry technician; Hazardous Waste planner; Outdoor Guide; Wildlife technician; Wetlands conservation supervisor; Conservation education coordinator; Environmental risk/impact assessor; Recycling coordinator; Forester; Environmental consultant; Activist; Lobbyist.

**Workplaces:** Waste Management; Private industry including utilities, construction, energy; Environmental planning; Government; Communications; Transportation; Scientific research groups; Architecture or surveying companies; Forestry; Mining.
**ENVIRONMENTAL SCIENCE**

**MAJOR Program Plan**

### 1ST YEAR

- **Plan Your Academics**
  - Enrol in ENV100Y5: Attain 2.0 credits in Quantitative and Basic Scientific Foundation. View the Academic Calendar for course options.
  - Choose a program of study (Subject POS3) once you complete 4.0 credits. Use the Degree Explorer Planner and the Academic Calendar to plan your degree.
  - Start strong and get informed with utmeONE and LAUNCH through the Centre for Student Engagement (CSE). Join a RGASC Peer Facilitated Study Group.
- **Build Skills**
  - Use the Co-Curricular Record (CCR). Search for opportunities beyond the classroom, and keep track of your accomplishments.
  - Attend the Get Experience Fair through the Centre OC (CC) to find postings for on- and off-campus work and volunteer opportunities.
- **Build A Network**
  - Networking simply means talking to people and developing relationships with them. Start by joining the Student Association for Geography and Environment (SAGE).
  - Visit the UTM Library Reference Desk.
  - Attend events held by the International Education Centre (IEC), whether you are an international or domestic student. Explore different cultures through food, music, and sport or through sight-seeing around the GTA.
- **Build A Global Mindset**
  - Start with the International Education Week events and learn about the diversity, culture, and international opportunities on campus!
  - Interested in deepening your global perspective? Register for the Global Citizenship Certificate offered by the IEC.

### 2ND YEAR

- **Plan Your Academics**
  - Enrol in ENV201H5: Attain 0.5 credits in Biological & Ecological Perspectives, 1.0 credits in Geographical, Physical & Chemical Perspectives and 0.5 credits in Social, Economic & Policy Perspectives. View the Academic Calendar.
  - Consider applying for Research Opportunity Program (ROP) courses ENV299Y and ENV399Y. Visit the EEU website for ROP Course Prerequisites. Attend the RGASC’s P.A.R.T. to enhance your research skills.
- **Build Skills**
  - Use the Career Learning Network (CNL) to find postings for on- and off-campus work and volunteer opportunities.
  - Work on-campus through the Work-Study program. View position descriptions on the CNL.
- **Build A Global Mindset**
  - Do you have a professor you really like or connect with? Ask them a question during office hours. Discuss an assignment. Go over lecture material. Don’t be shy! Learn Tips On How to Approach a Professor.
  - Consider applying for Research Opportunity Program (ROP) courses ENV299Y and ENV399Y. Visit the EEU website for ROP Course Prerequisites. Attend the RGASC’s P.A.R.T. to enhance your research skills.
- **Plan For Your Future**
  - Attend the Program Selection & Career Options workshop offered by the Office of the Registrar and the CC.
  - Check out Careers by Major at the CC to see potential career options.

### 3RD YEAR

- **Plan Your Academics**
  - Enrol in ENV330H5: Attain 0.5 credits in Field, Project-Based & Research Perspectives, 1.0 credits in Biogeochemical Perspectives and 0.5 credits in Social, Economic & Policy Perspectives. View the Academic Calendar.
  - Throughout your undergraduate degree:
    - use the Degree Explorer to ensure you complete your degree and program requirements.
    - see the Office of the Registrar and the Environment Programs Academic Counsellor.
  - Enrol in ENV330H5. Attain 0.5 credits in Field, Project-Based & Research Perspectives, 1.0 credits in Biogeochemical Perspectives and 0.5 credits in Social, Economic & Policy Perspectives. View the Academic Calendar.
  - Enrol in ENV330H5. Attain 0.5 credits in Field, Project-Based & Research Perspectives, 1.0 credits in Biogeochemical Perspectives and 0.5 credits in Social, Economic & Policy Perspectives. View the Academic Calendar.
- **Build Skills**
  - Gain practical experience through ENV332H5, a practicum in Environmental project management. Learn field techniques in Haliburton forest with GGR379H5. Speak to the Environment Programs Academic Counsellor.
- **Build A Global Mindset**
  - Earn credits overseas! Study for a summer, term or year at one of 120 universities. The Geography department has identified partners who are most relevant to their students. Speak to the Environment Programs Academic Counsellor.
- **Plan For Your Future**
  - Attend department research seminars and participate in departmental networking events organized by SAGE.
  - Thinking about life after UTM? Connect with a UTM alumnus through the CSE’s Alumni Mentorship Program!
  - Attend department research seminars and participate in departmental networking events organized by SAGE.
  - Thinking about life after UTM? Connect with a UTM alumnus through the CSE’s Alumni Mentorship Program!

### 4TH OR FINAL YEAR

- **Plan Your Academics**
  - What is Experiential Education? It means learn by doing! Gain experience designing and executing an independent senior thesis by enroling in GGR417Y5 Honours Thesis. Speak to the Environment Programs Academic Counsellor about enroling in a course with hands on experience such as ENV496H5 (Restoration Ecology II) and ENV497H5 (Environmental Research Project).
  - Enrol in ENV332H5, a practicum in Environmental project management. Learn field techniques in Haliburton forest with GGR379H5. Speak to the Environment Programs Academic Counsellor.
- **Build Skills**
  - Establish a professional presence on social media (e.g., LinkedIn).
  - Attend department research seminars and participate in departmental networking events organized by SAGE.
  - Thinking about life after UTM? Connect with a UTM alumnus through the CSE’s Alumni Mentorship Program!
  - Establish a professional presence on social media (e.g., LinkedIn).
- **Build A Global Mindset**
  - Earn credits overseas! Study for a summer, term or year at one of 120 universities. The Geography department has identified partners who are most relevant to their students. Speak to the Environment Programs Academic Counsellor.
  - Earn credits overseas! Study for a summer, term or year at one of 120 universities. The Geography department has identified partners who are most relevant to their students. Speak to the Environment Programs Academic Counsellor.
- **Plan For Your Future**
  - What’s your next step after undergrad?
    - Considering further education? Research application requirements, prepare for admission tests (LSAT, MCAT), and research funding options (OGSS, NSERC).
  - What’s your next step after undergrad?
    - Considering further education? Research application requirements, prepare for admission tests (LSAT, MCAT), and research funding options (OGSS, NSERC).

**HOW TO USE THIS PROGRAM PLAN**

Read through each year. Investigate what appeals to you here and in any other Program Plans that apply to you.

Visit [www.utm.utoronto.ca/program-plans](http://www.utm.utoronto.ca/program-plans) to create your own plan using My Program Plan.

Update your plan yearly.

---

*Consult the Academic Calendar for greater detail on course requirements, program notes and degree requirements.
**Skills developed in Environmental Science**

To be competitive in the job market, it is essential that you can explain your skills to an employer. Visit the Career Centre to learn how to articulate and market the following skills:

**Research**: collect and preserve field organisms as well as utilize logical reasoning to interpret results/data derived from scientific experimentation.

**Technical**: use computer to manipulate and display data and comply with quality control procedures while conducting experiments.

**Quantitative**: apply statistical packages to data to test for significance.

**Communication**: support scientific findings by writing literature reviews of journal articles, and interact professionally with a multidisciplinary team of researchers, technicians, students and professors.

**Services that support you**

- Accessibility Services (AS)
- Career Centre (CC)
- Centre for Student Engagement (CSE)
- Experiential Education Unit (EEU)
- Health & Counselling Centre (HCC)
- Indigenous Centre (IC)
- International Education Centre (IEC)
- Office of the Registrar (OR)
- Recreation, Athletics and Wellness Centre (RAWC)
- Robert Gillespie Academic Skills Centre (RGASC)
- UTM Library, Hazel McCallion Academic Learning Centre (HMALC)

**Get involved**

Check out the 100+ student organizations on campus. Here are a few:

- Student Association for Geography and Environment (SAGE)
- UTM Student Union (UTMSU)
- UTM Athletics Council (UTMAC)

For a listing of clubs on campus visit [www.utm.utoronto.ca/clubs](http://www.utm.utoronto.ca/clubs).

**Department of Geography**

William G. Davis Building, Rm 3282
University of Toronto Mississauga
3359 Mississauga Rd
Mississauga ON Canada L5L 1C6
sabrina.ferrari@utoronto.ca
[www.utm.utoronto.ca/geography](http://www.utm.utoronto.ca/geography)

**Future Students**

**Admission to UTM**

All program areas require an Ontario Secondary School Diploma, or equivalent, with six Grade 12 U/M courses, or equivalent, including English. The admission average is calculated with English plus the next best five courses. The Grade 12 prerequisites for this program are Advanced Functions, Biology and Chemistry or Physics. The approximate average required for admission is mid- to high-70s. More information is available at [utm.utoronto.ca/viewbook](http://utm.utoronto.ca/viewbook).

**NOTE**: During the application process, applicants will select the Chemical & Physical Sciences admissions category, but will not officially be admitted to a formal program of study (Specialist, Major, and/or Minor) until after first year.

**Sneak Peek**

Abundant opportunities are available for students to become involved in environmental practice, research and fieldwork (e.g., ENV299Y5 Research Opportunity Program, ENV332H5 Environmental Sustainability Practicum, and ENV497H5 Environmental Research Project). Students may also have the opportunity to complete a practical work placement course related to their specific area of interest (JEG400/401Y5 Environmental Geography Internship).

Our curriculum stresses the integrative nature of the study of the environment. Environment faculty members encourage students to become involved in critical thinking, cross-disciplinary collaboration, and the application of concepts to real-life problems.

**Student Recruitment & Admissions**

Innovation Complex, Room 1270
University of Toronto Mississauga
