The French program offers students a wide range of courses designed to provide the basis for the study of our French heritage. Our course offerings comprise a variety of fields: French as a language system (including Business French); critical approaches to literature; teaching and learning French (including teaching with new technology); and the study of both French and Quebec Literatures.

For students wishing to pursue a program leading to a high level of competence in French, we offer two series of language courses: FSL course for non-specialists; and FRE courses for specialists, maximizing contact with instructors and using modern methods.
