The Management Specialist is a four-year program which leads to a BBA degree preparing students to become effective members of organizations. Drawing on a balanced offering of rigorous intellectual frameworks from the social sciences, the Specialist covers the nature and operations of organizations as well as managerial functions.

Career success upon graduation requires the social skills, professionalism and maturity developed through active participation in the extensive extra-curricular programming activities offered by the Department of Management, and our undergraduate societies. Activities include attendance and participation in conferences, competitions, seminars and workshops.
