

Substitute Assignment

VanderLaan Lab

Instructions:

Click on the following article and answer the following questions in 2-3 pages (double-spaced).

[Hassett, J. M., Siebert, E. R., & Wallen, K. \(2008\). Sex differences in rhesus monkey toy preferences parallel those of children. *Hormones and behavior*, 54\(3\), 359-364.](#)

1. What was the purpose of the study conducted by Hassett, Siebert, and Wallen (2008)?
2. How do child toy preferences differ between the sexes?
3. Do rhesus monkeys show sex differences in toy preferences?
4. What were the main conclusions reached in this article?

Once complete, email the assignment to the Undergraduate Assistant at psyched.utm@utoronto.ca

From the Code of Behaviour on Academic Matters: “It shall be an offence for a student to knowingly: represent as one's own any idea or expression of an idea or work of another in any academic examination or term test or in connection with any other form of academic work, i.e. to commit plagiarism. Wherever in the Code an offence is described as depending on "knowing", the offence shall likewise be deemed to have been committed if the person ought reasonably to have known.” All students must refer to this website to obtain information on what constitutes plagiarism. <http://www.writing.utoronto.ca/advice/using-sources/how-not-to-plagiarize>.

Plagiarism will not be tolerated.
