

Substitute Assignment

Johnson Lab

Instructions:

Click on the following video of an undergraduate participating in an experiment and answer the following questions in 2 – 3 pages (double spaced).

<https://youtu.be/jKgdl4-kYmY>

1. What is the purpose of this experiment? (i.e. what is the research question?)
2. What are the researcher's predictions?
3. What was the participant's task in this experiment?
4. Why was the participant asked to draw pictures of each character?
5. What is the Independent Variable? What is the Dependent Variable?
6. Why was the participant asked questions about their language background prior to the beginning of the experiment?
7. What information would the results from the experiment provide regarding children's language development?

Once complete, email the assignment to the Undergraduate Assistant at psyched.utm@utoronto.ca

You MUST use your 'utoronto' email account.

From the Code of Behaviour on Academic Matters: “It shall be an offence for a student to knowingly: represent as one's own any idea or expression of an idea or work of another in any academic examination or term test or in connection with any other form of academic work, i.e. to commit plagiarism. Wherever in the Code an offence is described as depending on "knowing", the offence shall likewise be deemed to have been committed if the person ought reasonably to have known.” All students must refer to this website to obtain information on what constitutes plagiarism. <http://www.writing.utoronto.ca/advice/using-sources/how-not-to-plagiarize>.

Plagiarism will not be tolerated.
