

Substitute Assignment

Schertz Lab

Instructions:

Click on the following article and answer the following questions in 2-3 pages (double-spaced).

[Baese-Berk, M., Bradlow, A., and Wright, B. A. \(2013\). Accent-independent adaptation to foreign-accented speech. *The Journal of the Acoustical Society of America*, 133\(3\): EL174–180.](#)

1. In your own words, state what you think is the broad research question addressed by this article.
2. How did this experiment differ from and extend similar previous work?
3. What were the independent variables and dependent variables used in this experiment? What were the results?
4. Describe Figures 1 and 2 in your own words in a way that would be understandable to someone who has not taken a Psychology course.
5. What were the conclusions reached in this article?

Once complete, email the assignment to psyched.utm@utoronto.ca
You MUST use your 'utoronto' email account.

From the Code of Behaviour on Academic Matters: “It shall be an offence for a student to knowingly: represent as one's own any idea or expression of an idea or work of another in any academic examination or term test or in connection with any other form of academic work, i.e. to commit plagiarism. Wherever in the Code an offence is described as depending on "knowing", the offence shall likewise be deemed to have been committed if the person ought reasonably to have known.” All students must refer to this website to obtain information on what constitutes plagiarism. <http://www.writing.utoronto.ca/advice/using-sources/how-not-to-plagiarize>.

Plagiarism will not be tolerated.
