Course Description

This course offers an in-depth examination of selected topics in personality. The focus is on cutting edge research in personality psychology as published in recent or seminal articles in the top journals of the field (e.g., Journal of Personality and Social Psychology). The course examines fundamental research questions (e.g., state vs. trait, causal modeling of correlations, mediation vs. moderation, genetic vs. environmental causes of individual differences, etc.)

Course Evaluation
The evaluation in this course is based on oral and written participation.

20% of the mark is based on active oral participation in class discussions. Evaluations are based on quantity and quality of participation. The best 8 marks will be used for the participation mark (You can miss some classes).
Marking scheme:
0% = Did not come to class
25% = Did come to class, but didn’t participate actively (say something)
50% = Did come to class and participated at least once.
70% = Did come to class and made several contributions to class discussion.
90% = Did come to class and made several original contributions to class discussion.

40% of the mark is based on written answers to posted questions and online discussion.

40% of the mark is based on a term paper on a select topic in personality research. The term paper should be 8-12 pages long (excluding title page, abstract, and reference list). It should be written with 1-inch margins, font 12, and double-spaced. 5%-points of the term paper marks are based on an outline of the term paper due by February 1. 10%-points of the term paper are based on a draft of the term paper due by March 1. 15%-points of the term paper are due for the final term paper due by April 1. All submissions are done electronically through Quercus.
Students have to notify me as soon as possible to request extensions of deadlines if they have a valid reason to do so, at least four days before a deadline. Illness or computer problems during the last four days before a deadline are not valid excuses!

IMPORTANT COURSE POLICIES **PLEASE READ**

Extension of Time Special Consideration Request Process
Students who seek to be granted more time to complete their term work beyond the due date without penalty, owing to circumstances beyond their control (e.g., illness, or an accident), must do so by submitting a request directly to the Instructor for the period up to and including the last day of the term. The decision as to whether or not to apply a penalty for the specified period rests with the Instructor.

Students who seek to be granted more time to complete term work beyond the last day of the term must submit their request directly to the Department. This request covers the period following the last day of classes and ends the last day of the exam period. This is done by submitting a request via the online Special Consideration Request form at https://utmapp.utm.utoronto.ca/SpecialRequest. You are advised to seek advising by the departmental Undergraduate Counsellor prior to the deadline.

Original supporting documentation (e.g., medical certificates, verification of extenuating circumstances form, etc.) must be submitted to the Psychology Academic Counselor or dropped off in the drop box located outside the Psychology office Deerfield Hall, 4th Floor. Students are expected to submit requests to the Department before the last day of the term, unless demonstrably serious reasons prevent them from doing so. In the event of an illness, medical certificates or doctor’s notes must confirm that student was ill on the due date of the assignment (for a one-day extension). For a longer extension, documentation must specify the full duration during which academic work could not be carried out.
For extensions of time beyond the examination period you must submit a petition through the Office of the Registrar. http://www.utm.utoronto.ca/registrar/current-students/petitions

Penalties for Lateness
A penalty of 10% per calendar day (i.e., including week-ends and holidays, during which students are not able to submit term work) up to and including the last day of classes, will be applied by the Instructor. After the last day of classes, the penalty of 10% per calendar day will be applied by the Undergraduate Counsellor on behalf of the Department. No penalty will be assigned if request for special consideration, described above, was successful.

Academic Honesty and Plagiarism
Honesty and fairness are considered fundamental to the university's mission, and, as a result, all those who violate those principles are dealt with as if they were damaging the integrity of the university itself. When students are suspected of cheating or a similar academic offence, they are typically surprised at how formally and seriously the matter is dealt with -- and how severe the consequences can be if it is determined that cheating did occur. The University of Toronto treats cases of cheating and plagiarism very seriously. Please take the time to review the Academic Integrity website: http://www.utm.utoronto.ca/academic-integrity/students.

- Common trends in academic offences:
- Plagiarizing/concocted references
- Collaboration/unauthorized assistance
- Purchasing work
- Recycling work - "double-dipping"
- Resubmitting of altered work for re-grading
- Electronic devices (cell phones) or any unauthorized aids
- Altering medical certificates and UofT documents

From the Code of Behaviour on Academic Matters: “It shall be an offence for a student to knowingly: represent as one’s own any idea or expression of an idea or work of another in any academic examination or term test or in connection with any other form of academic work, i.e. to commit plagiarism. Wherever in the Code an offence is described as depending on “knowing”, the offence shall likewise be deemed to have been committed if the person ought reasonably to have known.” All students must refer to this website to obtain
If questions arise after reading the material on the website, consult your instructor. Plagiarism will not be tolerated.

Equity Statement
The University of Toronto is committed to equity and respect for diversity. All members of the learning environment in this course should strive to create an atmosphere of mutual respect. As a course instructor, I will neither condone nor tolerate behaviour that undermines the dignity or self-esteem of any individual in this course and wish to be alerted to any attempt to create an intimidating or hostile environment. It is our collective responsibility to create a space that is inclusive and welcomes discussion. Discrimination, harassment and hate speech will not be tolerated.
